MODEL IDENTIFICATION

1967 MODEL 96000

The models covered by this catalogue are as follows:

Model (Old Designation)	Model New Designation	Engine Option	Wheelbase	Type
CASZ4 CASV4	Not applicable	92 cu. in. Petrol	90"	Chassis only Van Body
CASZ30 CASV30	96190 96170	97 cu. in. Petrol	90"	Chassis only Van Body
CASZ0 CASV0	96290 96270	4/99 and 4/108 Perkins Diesel	90"	Chassis only Van Body
CALZ4 CALV4	Not applicable	92 cu. in. Petrol	102"	Chassis only Van Body
CALZ30 CALV30	96590 96570	97 cu. in. Petrol	102"	Chassis only Van Body
CALZ0 CALV0	96690 96670	4/99 and 4/108 Perkins Diesel	102" 102"	Chassis only Van Body

A detailed explanation of the old and new designations are given on the succeeding pages.

MODEL EXPLANATION

MODEL IDENTIFICATION PLATE

Model identification prior to July 1967 was by means of an identification plate attached to the inner footwell panel. On the earlier type of plate only the model and chassis number are quoted, but the later type used up to July 1967 included also details of any regular production code built on the vehicle. A specimen of this plate is indicated below.

 VAUXHALL MOTORS ENGLAND					
☐	MODEL	DR. JOB N°	COL	TRIM	CHASSIS N°
	CALV 30	R	U.6315	3X3	7313432
	094	147	177		
	DOM				
☐	DEST	TYRE	AR 1	AR 2	

VEHICLE IDENTIFICATION NUMBER PLATE

From August 1967 identification is by means of the Vehicle Identification Number Plate ('VIN' plate). An example of this plate is illustrated below.

VAUXHALL MOTORS LIMITED
9 6 5 7 0 7 V 8 0 0 0 0 1

This can be identified as a Vauxhall 10/12 cwt Van, four cylinder petrol engine, Van body, built in 1967 production year at Luton, its chassis number is 800001.

The first five numeric characters on the 'VIN' plate identify the model, the sixth digit represents the model year and the seventh is the plant identification. The remaining six characters represent the actual chassis number, but it should be remembered that the last eight characters will be included in the text of the catalogue.

MODEL EXPLANATION (Contd.)

MODEL DESIGNATION

The new model designation featured on the 'VIN' plate is based on the Passenger Vehicle Master Chart, which appears later in this foreword and an explanation as applied to this catalogue is detailed below:

1st digit This identifies Vauxhall Motors as a manufacturing plant and will be constant on all passenger models.

2nd digit This identifies the particular range, a different character will be used for each range of passenger and light van models.

3rd digit This is to identify the engine and vehicle flavour. A variety of characters will be used and as an example detailed below are those applicable to Series CA/96000.

Vehicle	Engine
1 90" WB Standard Van or Chassis (CAS30)	with 4 cylinder 77 cu.in.Petrol Engine
2 90" WB Standard Van or Chassis (CASO)	with 4/108 Perkins Diesel Engine
5 102"WB Standard Van or Chassis (CAL30)	with 4 cylinder 97 cu.in.Petrol Engine
6 102"WB Standard Van or Chassis (CALO)	with 4/108 Perkins Diesel Engine
0 All	

4th and 5th digit These together identify the Body style, and are as follows.

90	Chassis only
70	Van Body
00	All

MODEL EXPLANATION (Contd.)

CHASSIS NUMBERS

The first five characters on the 'VIN' plate have been covered in the model explanation and the remaining eight digits are identified as follows:

6th digit

This will be a number and provides a production year code. Thus '8' denotes the vehicle to be a 1968 production vehicle, '1' will denote 1971, and so on.

7th digit

This identifies the place of manufacture and will be as follows:

'V'	Luton
'E'	Ellesmere Port
'T'	Dunstable

The remaining six digits form the actual chassis number, although all eight digits will be quoted in Parts Catalogues

CA Van chassis numbers commence at 800001 and are preceded by a "V" because these Vans are built at Luton.

ENGINE NUMBER

The engine number will be found stamped on a flat boss on the right hand side of the engine.

Prior to the introduction of the 'VIN' plate the engine number was prefixed by the type number.

Details of this engine pre-fix are as follows:

4	for Bedford 92 cu.in. petrol (1508cc)
30	for Bedford 97 cu.in. petrol (1594cc)
0	for Perkins 4/99 and 4/108 diesel

From August 1967 engines are numbered only in relation to the production line on which they are built and not the vehicle into which they are installed. The revised engine number consists of seven numeric characters.

MODEL EXPLANATION (Contd.)

MODEL ABBREVIATION

Prior to the introduction of the 'VIN' plate the model indication was abbreviated in a logical manner. This is illustrated in the following chart.

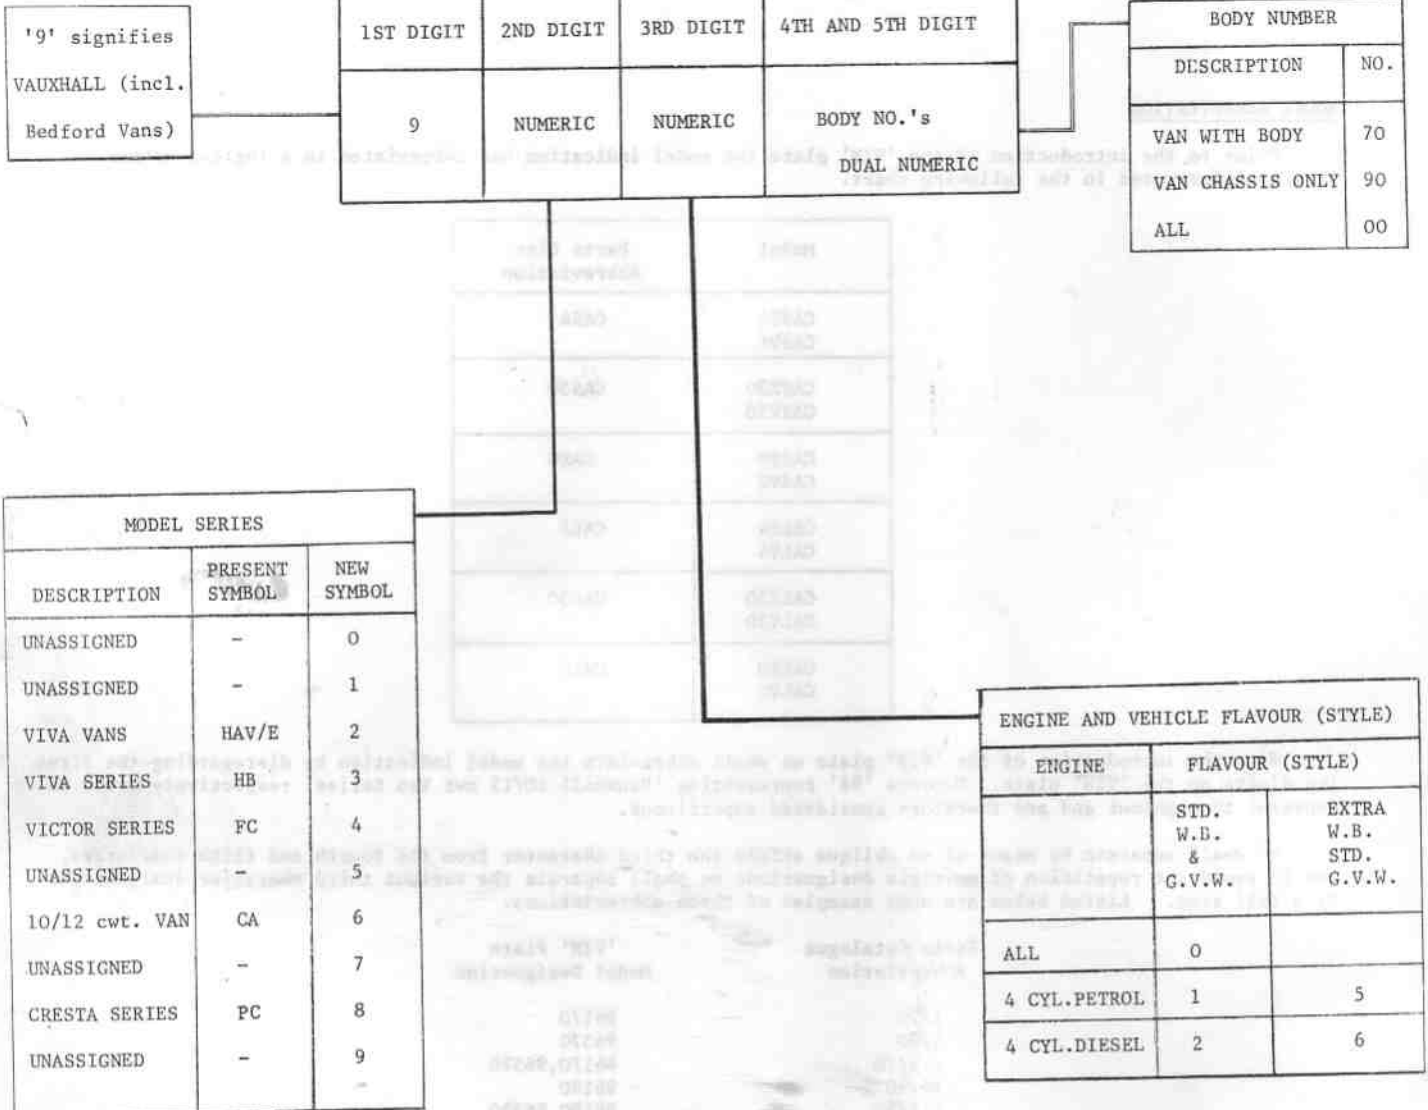

Model	Parts List Abbreviation
CASZ4 CASV4	CAS4
CASZ30 CASV30	CAS30
CASZ0 CASV0	CAS0
CALZ4 CALV4	CAL4
CALZ30 CALV30	CAL30
CALZ0 CALV0	CAL0

With the introduction of the 'VIN' plate we shall abbreviate the model indication by disregarding the first two digits on the 'VIN' plate. Numbers '96' representing 'Vauxhall 10/12 cwt Van Series' respectively would be constant throughout and are therefore considered superfluous.

We shall separate by means of an oblique stroke the third character from the fourth and fifth characters, and to avoid the repetition of multiple designations we shall separate the various third character designations by a full stop. Listed below are some examples of these abbreviations.

Parts Catalogue Abbreviation	'VIN' Plate Model Designation
1/70	96170
5/70	96570
1.5/70	96170,96570
1./90	96190
1.5/90	96190,96590

PASSENGER VEHICLES - MASTER CHART

PRODUCTION OPTIONS

Various options are available with production of vehicles covered by this Parts List. Whilst these options are usually recognised by certain features and described as such in the list, on occasions a Production Option Code may be quoted and to assist users of this list, the main codes applicable are detailed below.

Code No.	Option	Code No.	Option
41	Air Cleaner (oil bath type)	215	Laminated glass
70	Van Heater	242	Thermostat with lower opening temperature
73	Straight Dip (Continental) Headlamps	248	Larger capacity Batteries
94	Heavy Duty Rear Springs	254	Special coil for use in low ambient temperatures
136	Suppression equipment	318	8 inch Clutch
143	Addition of Door Roller Shield	322	Unified European Headlamps
144	Dual Heater	329	Unified European Headlamps
147	High Compression Ratio Cylinder Head	330	Unified European Headlamps
148	Addition of Rear Bumper	331	Unified European Headlamps
153	Fitment of front crossmember guard	400	Alternator
177	4-Speed Gearbox	435	Positive Crankcase Vent
211	Toughened sheet glass Back Lights	523	Addition of Passenger Seat

REPLACEMENT PAGE SERVICE

Regular issues of replacement pages will be made for this Parts List and each will be dated with the month of issue. A Check Sheet giving the date of issue of every page in the Parts List will also be supplied with each batch of replacement pages. Users should ensure that replacement pages are inserted in this Parts List as soon as they are received.

To identify the changes that have been made on each new page the following symbols will be shown against the part number.

\$	...	New Parts Release
#	...	Engine or Chassis Range added
Ø	...	No Longer Serviced note added
&	...	Part No. changed
%	...	Quantity, description or detail changed

GENERAL NOTES

ORDER FROM YOUR NEAREST AUTHORISED DEALER

Throughout the British Isles comprehensive stocks of Vauxhall parts have been established by our Dealers. To obtain GENUINE PARTS promptly it is always advisable to communicate with the nearest Vauxhall Dealer in your District.

INDENTED ITEMS

Components of assemblies are shown following the assemblies, and can be recognised by the fact that they are indented i.e. set slightly on the right. Where the indenting ceases the items are no longer part of the assembly above.

ITEMS NO LONGER SERVICED

Items may be found in this list which are no longer available from Vauxhall Motors Ltd., but of which Dealers may still have stocks.

These are indicated by the term "No longer serviced" or "NLS" shown in the description of the part, and by the use of brackets embracing the part number.

Whenever such brackets are found read the note in the parts description.

PARTS FOR RIGHT OR LEFT, FRONT OR REAR

Where parts are not identical in every detail a different Part Number is used.

Care should be taken to state whether parts are required for the right-hand or the left-hand of the car, or the front or the rear.

Orders for such items as Hinges, should state whether required for Upper, or Lower; also whether for the front or rear Door on the right-hand or left-hand side. The right and left are determined from the driving seat, facing forward.

GROUP NUMBER

In the column preceding the Part Number will be found the Master Parts List Group Number. When the Group Number for the usage indicated is not the recognised Prime Group then the Prime Group will be indicated on the following line enclosed by brackets.

ABBREVIATIONS

The following abbreviations may appear in this list:

Amps. ... Amperes	Exp. ... Export	No. ... Number
Assy. ... Assembly	Ext. ... External	OD ... Outside Diameter
AR ... As required	Hd. ... Head	O/S ... Oversize or Offside
BA ... British Association	Hex. ... Hexagon	RHD ... Right Hand Drive
BSF ... British Std. Fine	HT ... High Tension	RH ... Right Hand
BSP ... British Std. Pipe	ID ... Inside Diameter	Rd. ... Round
Ch. ... Chassis	Int. ... Internal	Sq. ... Square
Csk. ... Countersunk	LHD ... Left Hand Drive	Std. ... Standard
c/w ... Complete with	LH ... Left Hand	SWG ... Standard Wire Gauge
Dia. ... Diameter	Med. ... Medium	U/S ... Undersize
Dom. ... Domestic	mm. ... Millimetre	Whit. ... Whitworth
Eng. ... Engine	NLS ... No longer serviced	

SPECIAL NOTE

While every care is taken in the compilation of the Parts Information contained in this Catalogue, no responsibility is accepted for any misinterpretation of orders, incorrect supply of components, or any consequences which may arise therefrom.

This Catalogue should be maintained in an up-to-date state by the insertion of replacement pages, regularly distributed to our officially appointed dealers and distributors.
