

DL400

Parts Manual

K1010632BEF

Serial Number 5001 and Up

December 15, 2006

Doosan reserves the right to improve our products in a continuing process to provide the best possible product to the marketplace. These improvements can be implemented at any time with no obligation to change materials on previously sold products. It is recommended that consumers periodically contact their distributors for recent documentation on purchased equipment.

This documentation may include attachments and optional equipment that is not available in your machine's package. Please call your distributor for additional items that you may require.

Illustrations used throughout this manual are used only as a representation of the actual piece of equipment, and may vary from the actual item.

FOREWORD

- This parts list is shown the equipment components parts of
「WHEEL LOADER DL400」.

1. HOW TO ORDER PARTS.

When ordering parts, please specify the following items as shown in the following example.

Ex.	1) Model of Machine	:	DL400	(Shown on name plate on the side cover)
	2) Machine Serial No	:	HLAD0-○○○○○	(Shown on nameplate on the bed frame)
	3) Engine Serial No	:	CUMMINS QSL9	(Shown on Engine cylinder block)
	4) Part No.	:	K1003137	
	5) Description	:	PUMP	
	6) Q'ty	:	1	

2. HOW TO USE THIS PARTS LIST.

Key No.	:	It shows the reference no. on the illustration.
Part No.	:	It shows the part number of the parts which are included in an illustration.
Description	:	It shows the name of part. Components of an assembly part are shown with [●] marks and are shown on the line, or lines, below the assembly part. Also if the components with [●] mark is consists of further components part. These further components are shown with the marks [●●].
Q'ty	:	It shows the quantity use for one machine. quantity of components show the quantity for one assembly part.
Service code	:	Abbreviations in this column have their own meaning as show below.
B	:	The parts with this abbreviation shows that the part requires some work on it before installing in the machine.
D	:	These parts are not serviceable. In case of the part with this abbreviation is a component of an assembly and is not available independently. The assembly part containing this part should be ordered.
K	:	This means that the part is contained in the service part kit.
M	:	This means that the part is available only with its mating parts altogether.
R	:	The part with this abbreviation shows that the quantity of the part is changed depending on the machine, such as an adjusting shim etc.
S	:	This part is specially provided as a service part, which was not provided in the machine before shipping from the factory.
G	:	This part need grade control and should be requested as the same

grade of counter part.

OP : Optional parts.

EX : Specific design parts.

OS : Over-sized parts.

US : Under-sized parts.

(Part with abbreviation "OS" or "US" is described on the line below the standard sized part.)

: The part with this mark is newly added on that page of the equipment.

Serial no. : Serial No. shows the machine serial number which the parts were applied.
As to the engine Serial No. shows only engine serial number which the parts were applied.
Parts without any applicable serial number are used in every machine.

ICA : ICA shows the interchangeability between the original and the improved parts.
Abbreviations used in this column are as follows:

I : Part No. in the column of "Replaceable part" can be used instead of this part but not vice versa.

P : This must not be used for machine. The part No. in the column "Replaceable part" should be used instead.

T : Parts No. those in the column of "Replaceable part" can be used as an assembly instead of this part.

Y : This part and the part in the column of "Replaceable part" are interchangeable with each other.

Blank : This part has no "Replaceable part"

Replaceable part : Interchangeable parts nos. and their required quantity are shown in this column.
If interchangeable improved parts are provided for the parts which you may order, the improved parts classified as "I", "P" "T" or "Y" may be supplied.

● When repairing, it is recommended to use our standard part.

● Researching the assembling parts from Part No., see the 「Parts Index」 of this parts list.

AVANT-PROPOS

- Cette liste de pieces apparait dans le 「WHEEL LOADER DL400」.

1. COMMENT COMMANDER LES PICES.

Lorsque vous commanderez les pieces, veuillez specifier les articles suivants comme indiques dans l'exemple ci-dessous:

Ex.	1) Modele de machine	:	DL400
	2) Serie de la machine	:	HLAD0-○○○○○
	3) Numero de serie du moteur	:	CUMMINS QSL9
	4) Numero de la piece	:	K1003137
	5) Description	:	POMPE
	6) Quantite	:	1

2. COMMENT UTILISER CE RECUEIL DE PIECES DETACHEES.

Numero de la cle : Indique le numero de reference de l'illustration.

Numero de la piece : Indique le numero de piece sur l'illustration.

Description : Nom de la piece. Les pieces composantes des pieces d'assemblage sont indiquees avec une marque [●] en dessous des pieces d'assemblage. Aussi, si les pieces composantes sont marques d'un [●]. Cela indique qu'il y a plusieurs pieces composantes, ces autres pieces composantes sont indiquees par un [●●].

Quantite : Quantite, montre la quantite utilisee pour une machine, cependant Q'te des composants de pieces montre la quantite utilisee pour un assemblage de pieces.

Code de Service : L'Abveration est un composant d'un code de service qui a sa propre signification comme indique ci-dessous.

B : La piece avec cette abreviation indique que la piece exige d'etre travaillee avant d'etre installee dans la machine.

D : La piece avec cette abreviation est uun composant d'un assemblage et n'est pas diponible toute seule, la d'assemblage contenant cette peece dcvrail ctrc commandee

K : Cette veut dire que la piece est inclue dans la trousse de pieces de service. "ensemble kit"

M : Cela signifie que la piece est disponible uniquement avec as peice piece d'accouplement.

R : La piece avec cette abreviation montre que la quantite de la piece est changee en fonction de la machine.

- S : Cette piece est specialement approvisionnee en tant que piece de service, qui n'a pas ete livree dans la machine lors du depart de l'usine.
- G : Cette piece a besoin d'on degerde controle et doit etre commande avec un niveau de degre equivalent.
- OP : Pieces facultatives
- EX : Pieces specifiquement dessinees
- OS : Pieces demesurees
- US : Pieces uop petites
La piece avec abreviation OS-US est decrite sur la ligne en dessous de la piece standard
- # : La piece avec cette marque vient d'ent d'etre rajoutee sur la page de l'equipement.
- Numero de serie : Numero de serie indique le numero de serie de la machine avcc lesquels les pieces etaient appliquees.
En ce qui concerne le numero de serie du moteur. Celui-ci indique seulement le numero de serie du moteur sur lesquels les pieces etaient appliquees.
Les pieces qui n'ont aucun numero de serie applicable sont utilisees dans toutes les machines.
- ICA : Indique l'interchangeabilite entre la piece originale et les piece ameliorees. Les abreviations utilisees dans cette colonne sont les suivantes:
- I : Piece numero dans la colonne de piece de piece de remplacement peut etre utilisee au lieu de cette piece mais pas l'inverse.
- P : Ceci ne peut etrc utilise pour la machine. Le numero de piece dans colonne pieces remplaceable devrait etre utilise a la place.
- T : Numcros de pieces, ceux dans la colonne piece de remplacement' peuvent etre utilisees en tant qu'assemblage au lieu de cette piece.
- Y : Cette piece et la piece dans la colonne piece de remplacement'sont.
- Piece de rechange : Numeros de pieces interchangeable et leurs quantites requises sont indiquees sur cette colonne. Si les pieces ameliorees interchangeables sont fournies, les pieces que vous pouvez commander sont classees de la facon suivante "I", "P", "T" ou "Y" peuvent etre fournies.
- Lors de reparation, il est recommande d'utiliser notre piece standard.
 - Recherche de pieces d'assemblage a partir des numeros de pieces
Regarder l'index des pieces qui se trouvent a la fin du livre.
