Chrome Rear Step Bumpers ... Style and Utility All in One**Ranger 1983-09**

Chrome Rear Step Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight.

These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #50-0050 is required when installing these rear bumpers.

* After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

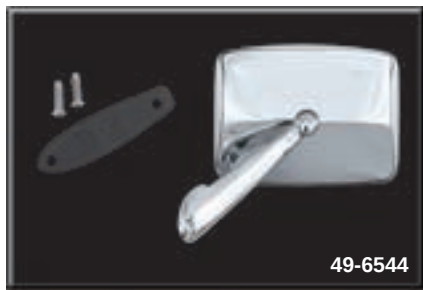

Chrome Rear Step Bumper - Diamond Tread

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

Chrome Rear Step Bumper - Polymer Pad

This classic style rear step bumper features a step pad to give your truck that finishing touch. Made from molded polymer, the step pad protects your truck from scratches while the grid pattern adds an excellent anti-skid surface for sure footing while loading and unloading.

Your Truck Could Be Shown Inside this Catalog !

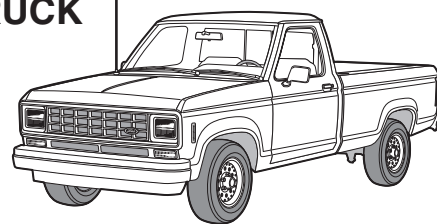

You worked hard restoring your truck ... and now you want others to see it. Send in a glossy (color or black and white) photo of your truck to the address at the bottom of the page - Attn: Graphics Dept. Include your name, address, phone number and a note about what you've done to it. Please add any interesting stories you may have about it. Someday you might see your truck inside this catalog or on our website. Then you can show it off to family, friends and other truck owners.

Why You Should Buy from LMC TRUCK

Dear Ford Ranger Owners:

As your eyes travel this catalog, you'll benefit from: What you need to know about taking care of your truck ... how to keep your truck looking good on the inside and out ... how to improve performance ... how to keep the body of your truck in trim shape ... how to make your engine sound great.

But that's not all. Here are ten more reasons you should do business with LMC TRUCK based on the satisfied experiences of thousands of customers across the country and abroad.

- Confidence** ♦ You have the confidence you are dealing with an established company in business for over 25 years.
- Security** ♦ You are secure ordering online with the latest 128 bit encryption technology to keep your information safe using the industry standard Secure Sockets Layer "SSL". The SSL technology encrypts your credit card information to prevent it from being intercepted as it travels over the Internet.
- Trust** ♦ You can trust us. Through LMC TRUCK you can depend upon the reliability of our truck parts and accessories and the driveability they provide. They all add up to performance.
- Convenience** ♦ Direct online ordering is available 24 hours a day at www.LMCtruck.com or by fax at 1-800-541-8525 without having anyone else in the middle. If you do not have an LMC TRUCK parts catalog yet, request one of our free catalogs today. You also have the confidence you can order parts and accessories from LMC TRUCK by mail or toll-free by telephone at 1-800-LMC-TRUCK, 7 days a week.
- Prices** ♦ You will certainly like our prices ... because they are very much in line. Whether it is original equipment, replacement or reproduction parts, LMC TRUCK prices are among the lowest in the business because of our volume purchasing. By dealing with Long Motor Corporation and LMC TRUCK through internet online ordering, mail order, fax or telephone order, you will have more dollars left over to put into your truck. Indeed, the way to have fun is to be affordable! In fact, you will find that the prices at LMC TRUCK are lower than the local truck parts store. Find the "Right Part ... Right Price ... Right Now"™. Shop LMC TRUCK.
- Protection** ♦ All orders at LMC TRUCK come with a full 180 days of purchase protection, return or exchange.
- Inventory** ♦ You will like our huge inventory of parts and accessories. We stock over 30,000 pickup truck parts and accessories so that you can get the part you need for your pickup truck FAST.
- Assurance** ♦ You have the assurance of working with Long Motor Corporation and LMC TRUCK, America's largest truck parts and accessories distributor. LMC TRUCK carries the most extensive inventory of truck parts and accessories in the world. Our Customer Service department will work with you to process your truck parts and accessories order in the most efficient manner possible! You will see that LMC TRUCK has been going beyond the call of duty to help ALL of our customers since 1981.
- Credit / Debit** ♦ We accept Visa ... MasterCard ... American Express and Discover.
- Ordering** ♦ Discover the ease, safety and convenience of ordering your truck parts and accessories online at www.LMCtruck.com. A direct order line is also available to you 7 days a week ... the toll free number in all 50 United States and Canada is 1-800-LMC-TRUCK. Truck parts and accessories orders can be placed with LMC TRUCK worldwide at 1-913-541-0684.

How to Use this Catalog

Example: Wiper Blades

PART	ILL#	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
47-3998	(1)	WIPER BLADE	RGR BRII 83-88 (2)	12.44	9.95

Please Note: Product drawings are only representations. Products supplied may vary from illustrations in this catalog.

ALL ITEMS ARE PRICED EACH IN THIS CATALOG.

"Kit" means the components that are required to do a replacement for one part, check required column. "Set" means a number of parts that complete one truck.

Explanation of policies is on pages 143 and 144.

Listing Explanation:

- PART:** The part number you order, i.e. #47-3998.
- ILL #:** Illustration reference number, i.e. (1) is the Wiper Blade.
- DESCRIPTION:** Name of part, i.e. Wiper Blade.
- APPLICATION:** Model and year part fits, i.e. Ranger and Bronco II 1983-88.
- REQD:** Quantity of the part required for one truck, i.e. two (2) Wiper Blades are required for one truck.
- LIST:** Suggested national list price, \$12.44.
- SELL:** The low price you pay for one part, i.e. Wiper Blade is \$9.95, making your total net cost \$19.90 + Delivery & Handling for two Wiper Blades required for one truck.

Part Number Definitions

- T** After a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.
- Z** Remanufactured Part - Core charge will be applied then refunded after receipt of a rebuildable core.
- R** Remanufactured Part - No core charge.

How to Read this Catalog

Part Number Example

50-5281 FRONT BUMPER GUARD SET-CHROME"A" RGR BRII 83-88 (1) 149.94 119.95
47-4085 UNIVERSAL WASHER PUMP 83-94 (1) 24.94 19.95

The application line states that this part, **#50-5281**, fits Ranger (RGR) and Bronco II (BRII) 1983-88. The application line for part **#47-4085** states that part **#47-4085** fits Ranger and Bronco II 1983-94 and Explorer 1991-94.

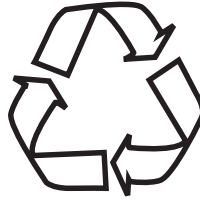

On the description line of part **#50-5281** you see "A", this means there is a special note about this particular part.

At the bottom of the page the part appears on you will find a shadow box that will describe to you what the special note for this part is.

Note: "A" For bumpers with rubber impact strip.

Example: This note is telling you that this part, **#50-5281**, is for bumpers with a rubber impact strip.

We Care for You and Our Environment

LMC TRUCK is making a concentrated effort to provide safe delivery and keep the environment as clean as possible. We use a polystyrene "peanut" as pack fill. It is photodegradable - which means that it will disintegrate in the sun, not in a landfill. It has been produced without ozone depleting chlorofluorocarbons.

Codes have been given to identify recycling processes, check with your recycling center to see if they accept polystyrene code 6. If this "peanut" is not recycled and is sent to a landfill, it's still environmentally safe.

You may have noticed that some of your packing materials do not have our company name and logos printed on them; we use other boxes that have misprints or are overruns to help control waste and packing cost. **LMC TRUCK** is helping you and our environment.

How to Identify Your Transmission**C3 Transmission****C5 Transmission****A4LD Transmission**

C3, C5 and A4LD Transmissions can be identified by the shape of the transmission pan and/or the number of pan bolts.

How to Identify Your Driveshaft**GKN Style****Spicer Style**

LMC TRUCK is in no way affiliated with the Ford Motor Company nor do we intend to imply that. The name Ford is used for reference only.

Applications listed in this catalog are based on original factory information. However, variances will occur due to non-documented substitutions, and changes made during the vehicles production.

Ranger Key Information

1983: Introduced in March 1982 as a 1983 model, built at the Louisville, Ky. plant. The Ranger was a scaled down F-Series. Double wall construction hood, doors, roof, box side and tailgate made the Ranger as sturdy as its big brother. Available as a 4x2 and 4x4, it came with three variations of 4 cylinder engines and one V6. From its introduction the Ranger was America's best selling compact truck for 8 of the next 10 years.

1984: Ranger styling was left alone. Trimwise the XLS and XLT models were offered. The Ranger S model was the stripped down "value" model.

1985: 232,771 Rangers were sold in 1985. A 2.3L 143 cid EFI Turbo Diesel 4 cylinder was offered. Styling remained unchanged.

1986: The new Super Cab was an immediate success. With 17 inches of additional room behind the front seat, the Ranger now had the same configuration as the F-Series.

1987: The High Rider 4x4 model was offered. It included a bed-mounted light bar, front Bush Bar, and improved handling. New styled white painted wheels were optional. All radios had an electronic display and included a clock. ABS rear brakes were standard on all models.

1988: America's best selling compact truck set a sales record of 367,212 trucks sold. The GT Package now joined the Custom, XLT and STX options. Both ground effects front spoiler and rocker panel skirting with sportier suspension made the GT package unique. 1988 was the last year of a carbureted engine, the 2.0L 122 cid, in a Ranger.

1989: A new front restyle made the Ranger style match the F-Series. Aerodynamically Flush Halogen headlights, wraparound turn signals, wraparound front bumper, all new hood and cowl and reshaped front fenders completed the update. The first Ford engine not to have a distributor was the 2.3L 140 cid EFI. It came with two spark plugs per cylinder and was the standard engine in the Ranger. All Ranger engines now came with EFI, electronically controlled fuel injection.

1990: A 4.0L 242 cid EFI V6 engine was offered and only available with the automatic overdrive transmission. The DANA 35 replaced the DANA 28 front axle.

1991: A sport model was added to the Ranger lineup with special paint, tape stripe package and special aluminum wheels. The 3.0L 183 cid EFI V6 was introduced.

1992: The big 4.0L 242 cid EFI now came with a 5-speed overdrive manual transmission. As the best-selling compact truck in America, Ford made few changes for 1992.

1993: The Ranger was completely restyled for 1993. The boxy look was dropped for a new streamlined appearance. The front end became more rounded and the front bumper wrapped around the fenders. Wheel wells became more pronounced with a wider flare. The new Flareside Splash model was introduced. Access to the cab was made easier with wider front doors. The 2.9L V6 engine was replaced with a 3.0L 182 cid.

1994: The Splash was now available as a Super Cab. For improved side impact safety, side door guard beams were added to all models.

1995: A driver's side airbag was added. All wheel ABS became standard for all four-wheel drive models and models with the 4.0L engine. A new electronic 4 speed automatic transmission was now available. The instrument panel received a facelift as well as the front grille.

1996: The Flareside bed was no longer exclusively available as a Splash model. Passenger side air bags were added as an option.

1997: A new five speed automatic transmission was offered as an option. A stereo with a single disc player was added as well as an extra power point for accessories.

1998: The Ranger increased its standard cab depth by three inches adding more legroom. The front of the truck received a new look with a new bumper, valance, grille, front lights and a steel or aluminum hood. A 2.5L 153 cid engine replaced the 2.3L engine. A wishbone type coil spring or torsion bar front suspension replaced the old coil spring Twin I-Beam. An all-electric Ranger EV was introduced for fleet sales only. The four-wheel drive could now be engaged on-the-fly with a dash switch.

1999: The Super Cab now came with four doors. The Splash model was dropped leaving available trim levels as the XL and XLT with optional sport appearance packages. A fully boxed frame now made the Ranger a tougher truck all around.

2000: Minor trim level changes were made for the Ranger in 2000. The XL received a new Trailhead package and the XLT received a new 4x4 Off-Road Group package.

2001: A new grille, front bumper, valance and crystal clear headlights gave the Ranger a custom appearance for 2001. The Ranger added a new trim level called the Edge. The Edge came standard with aluminum rims and color coordinated bumper, valance and wheel arch moldings. Both the 2WD and 4WD Edge models had the same ride height and came standard with a black vinyl floor. XLT Super Cabs now offered a premium off road package. The 4.0L OHV was replaced with a 4.0L 242 cid SOHC. Four wheel ABS became standard on all models.

2002: A fuel-efficient 2.3L 143cid DOHC engine was added and the 2.5L was dropped. A new FX4 off-road model was introduced with forged aluminum wheels, heavy-duty suspension and added skid plates. The FX4 came standard with the 4.0L engine. Standard trim levels remained the XL and XLT.

2003: A FX4 level II was introduced with a manual transfer case, a torsen® limited slip axle, heavy-duty shocks, forged aluminum wheels and stainless steel tow hooks. The Tremor trim level was added to the FX4 lineup with a 485-watt sound system.

2004: New front valances and grille designs were added to give the Ranger a rugged new look much like the F150. Interior changes were minimal. The Tremor was given a new 510-watt sound system, sporty interior design and custom cast aluminum wheels.

2005: Interior changes were minimal. Trim levels offered were the XL, XLT, Edge, FX4 Off-Road, FX4 Level II. The Tremor trim level was dropped. A stylish STX trim level was added that had a custom grille, valance, aluminum wheels, running boards, tail lights and fog lights. Ford Ranger has been distinguished as the best selling compact truck for 17 years straight.

2006: A new grille with horizontal bars, squared off mirrors and boxed in emblems now gave the Ranger the look of a small F150. Park lights and taillights were changed as well. Minor changes were made to the front bumper and fenders. The Edge was replaced by the Sport, which came in 2WD and 4WD.

2007: Minor interior changes were made. The crash safety service was upgraded. A tire pressure monitoring system and a passive anti-theft system were also added as an option. SIRIUS satellite radio and an auxiliary MP3 input jack were added to the premium sound system.

2008: A new front bumper with better aerodynamics was added to improve fuel economy. With the new front bumper, fog lights were also redesigned. The FX4 Off-Road Ranger received some performance upgrades and the FX4 LEVEL II and STX trim levels were dropped.

2009: Minor interior changes were made. Trim levels offered were the XL, XLT, Sport and FX4 Off-Road. A trailer hitch receiver became standard on all models. The 3.0L engine was dropped leaving the 2.3L and 4.0L as the two engine choices.

Bronco II Key Information

- 1984:** The Bronco II was the 4x4 midsize equivalent of the full size Bronco. The same double wall construction hood, doors, roof, box sides and tailgate as the full size Ford. The Twin Traction Beam front axle, 4-speed manual transmission, and 2.8L 170 cid V6 were standard.
- 1985:** Styling was carried over, now standard full instrumentation, transfer case skid plates and a 5-speed transmission. Optional was the 2.3L 143 cid EFI 4 cylinder Diesel engine.
- 1986:** The 2.9L 179 cid EFI V6 replaced the original 2.8L 170 cid engine. A multiple of exterior colors and two-tone paint scheme were optional.
- 1987:** ABS rear wheel braking is now standard on all models. 4x2 two-wheel drive was now available. Optional electric transfer case shifting and Touch Drive were now available.
- 1988:** The XL Sports model was now available. White-lettered tires, deep-dished cast aluminum wheels, tachometer, brush/grille guard, fog lights, black front bumper and black tubular rear bumper combined to make the XL a cool off-the-road truck.
- 1989:** A completely restyled front end was similar to the F-Series design. Automatic transmission shift linkage moved to the steering column. A floor-mounted, rear seat heater was only available on the Bronco II.
- 1990:** No major changes, for this was a short production year, ending in February 1990. This made way for the longer and wider 1991 Explorer to be introduced.

Vehicle Identification Number

Explorer Key Information

- 1991:** The 1991 Explorer replaced the Bronco II as the Ford midsize SUV. The front end was similar to the Ranger STX. The vehicle came in two or four doors and was larger than the Bronco II. Trim lines included the XL, XLT and the Eddie Bauer Edition. The only engine available was the 4.0 Liter V6. The Explorer offered optional 4WD or automatic overdrive transmission. A Twin I-Beam front suspension was standard on 2WD models and the Twin Traction front axle came with 4WD models.
- 1992:** The Explorer had proven to become the best selling SUV in the U.S. giving Ford no reason to make any changes this year.
- 1993:** In 1993 a fully loaded Limited Edition was offered along with the original XL, XLT and Eddie Bauer trim levels. Four wheel ABS became standard on all Explorers.
- 1994:** With the continued success as being the most popular SUV in the U.S. there were no reasons to make any significant changes this year.

Window Installation Tips:

1. Fit your new window rubber to your cab first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#42-0860) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks your new window rubber may appear slightly larger than the original prior to installation.

SHADED Windshield has a full light green tint with a dark band at the top of glass.

TINTED Windshield has a full light green tint to glass.

Windshield and Glass Sealant

is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals.

42-0809

Windshield Stick

A glass installer's most useful tool! Can be used to install or remove windows or window rubber. This plastic tool measures 8" in length for an easy grip.

Double Black Film Kit

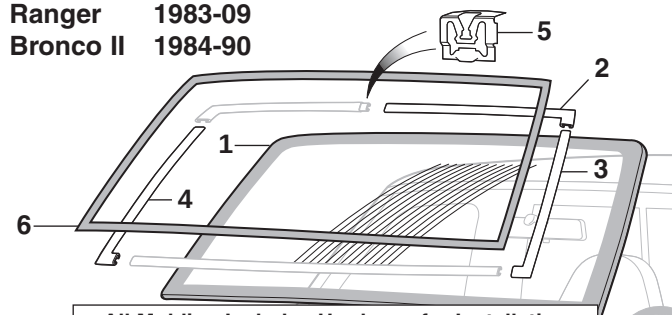

42-0695

With the Double Black Film Kit you can ride in your truck without being bothered by the rest of the world. Customize your truck with an easy-to-install Double Black Film Kit with self-adhesive backing. The 20" x 60" kit offers the maximum protection from the sun coming in through your truck's rear window. Double Black Film Kit makes glass more shatter resistant and is hard coated to ensure minimum scratching from window usage. Film Kit allows 5% light transmission. *Check state and local laws before ordering.*

Front Steel Body Parts

Ranger 1983-88

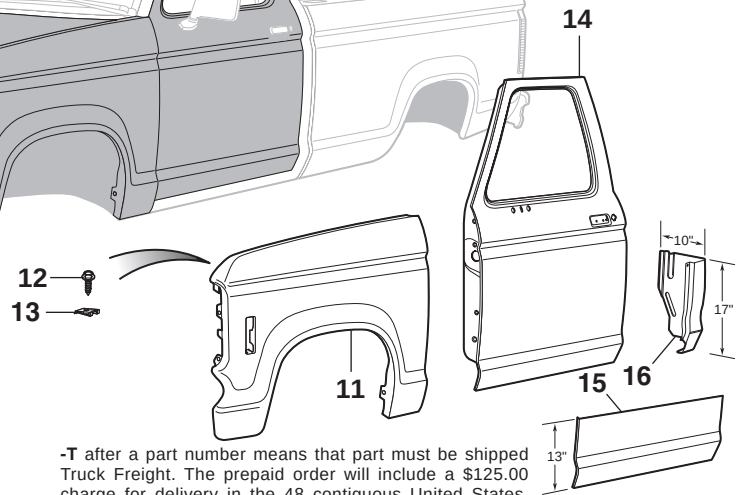

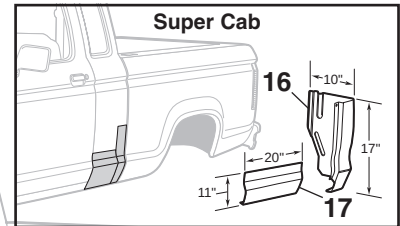

To ensure proper fit of repair panels, do not begin cutting the existing sheet metal until you have received and checked the fit of the new panel.

Due to variations between manufacturers, dimensions may vary slightly.

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

Steel Bed Panels

Ranger 1993-05

* After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

LIFTGATE

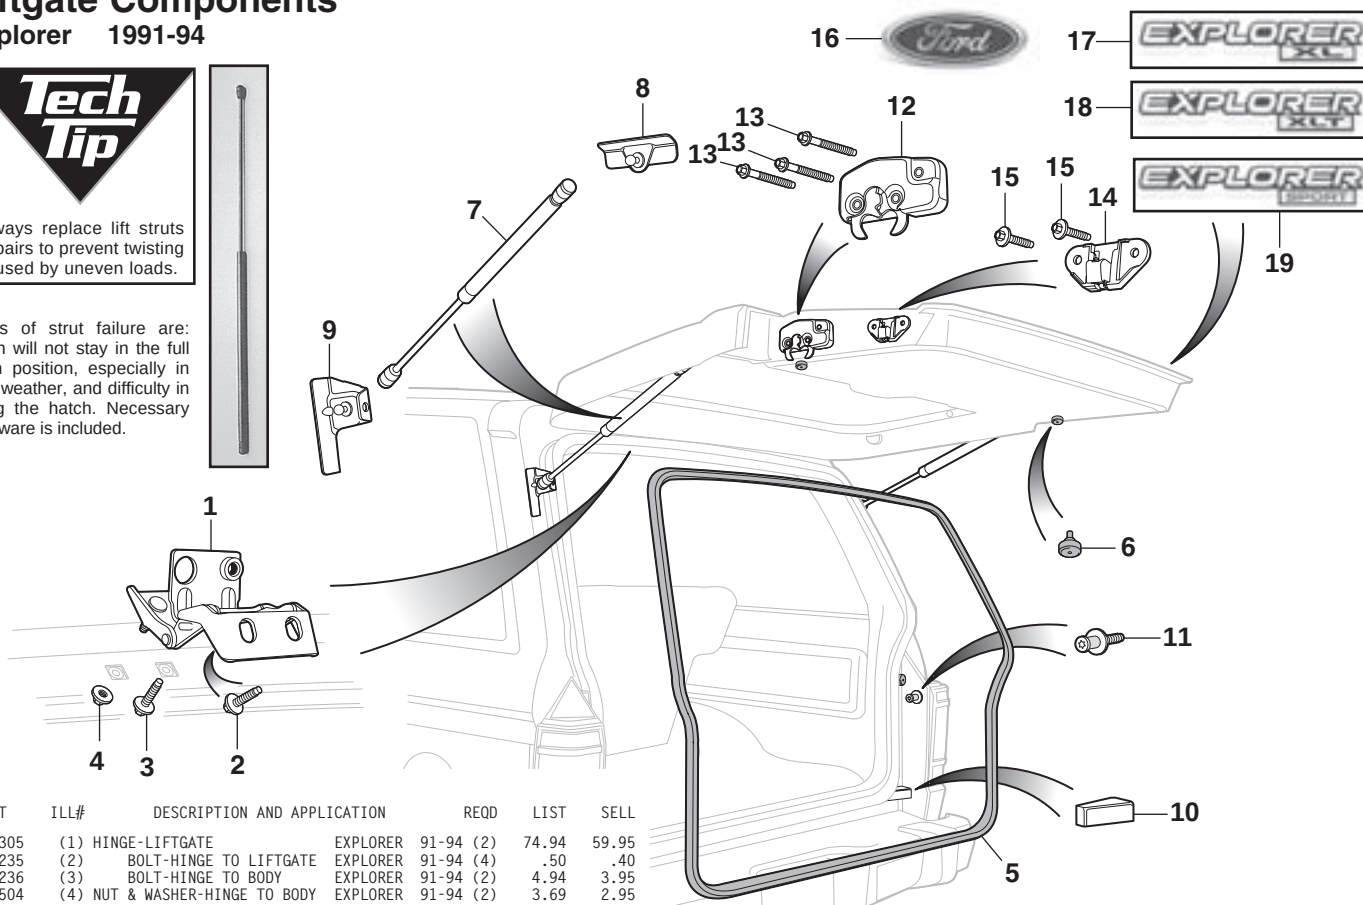

Liftgate Components

Explorer 1991-94

**Tech
Tip**

Always replace lift struts in pairs to prevent twisting caused by uneven loads.

Signs of strut failure are: hatch will not stay in the full open position, especially in cold weather, and difficulty in lifting the hatch. Necessary hardware is included.

Steel Body Parts

Explorer 1991-94

To ensure proper fit of repair panels, do not begin cutting the existing sheet metal until you have received and checked the fit of the new panel.

Due to variations between manufacturers, dimensions may vary slightly.

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.

Tie Down Anchors ... Easy to Use In and Out

Stationary Anchor Points

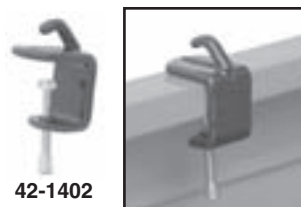

Anchoring a load has never been easier thanks to these Tie Down Anchors. Install and uninstall in minutes with no tools required. Insert the heavy-duty Tie Down Anchor into a stake pocket hole and turn the eyebolt to expand the rubber block. Two loop styles to choose from: chrome-plated loop #42-1401 or standard zinc-plated loop #42-1400. Both styles have metal top plates and a rubber liner underneath to protect your truck's finish. Sold individually. Buy four or six to keep your cargo secure.

42-1401	TIE DOWN ANCHOR-CHROME LOOP	RANGER	83-09 4/6	9.94	7.95
42-1400	TIE DOWN ANCHOR-ZINC LOOP	RANGER	83-09 4/6	7.44	5.95

Movable Anchor Point

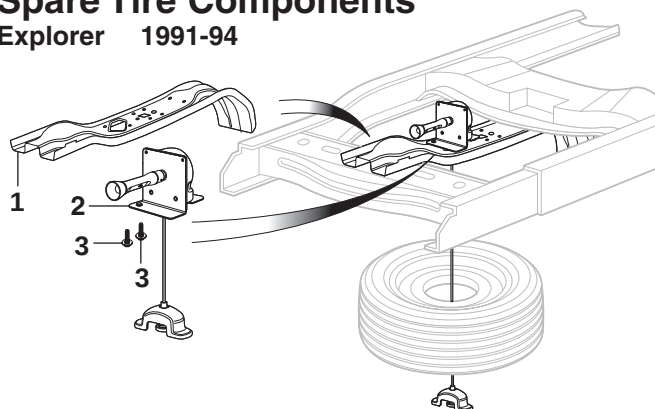

Anchoring a load is easy with these heavy-duty, steel anchor points. The unique "C" clamp design allows installation where needed; just clamp to bed rail and secure your load. Point and plate have been vinyl coated and will not rust or scratch your truck's finish. Can be used with "under the rail" style bed liners.

Body Gap Filler Set

Body Gap Filler Set is a simple way to cover the unsightly gap that's visible between the frame and the bed of your truck or the body of your SUV. Body Gap Filler Set creates a clean backdrop for your wheels and is also used to cover the opening created by a body lift kit. Made from 3/16" thick industrial rubber for long life and durability. Each piece measures 33-1/2" long by 4-3/4" wide. Must be sized and cut to fit. Drilling is required for installation. Includes mounting hardware and installation instructions.

Seat Heater Kits ... Warm Yourself Up Before Your Truck Warms Up

48-2588

3 Year/36,000 Mile Warranty

Seat Heaters are constructed with patented carbon fiber heating elements. Carbon fiber technology allows for quick, consistent and controlled warmth. The heating elements are paper thin and install between any seat cover material and the seat cushion. They are water-resistant and are not affected by damp clothes, spilled beverages or wet pets. Kit includes heating elements for seat back and bottom, three-way switch (Off/Low/High), pre-wired relay harness with fuse and easy-to-follow, fully illustrated instructions.

#48-2588 contains two 11" x 11" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bucket seat applications. #48-2589 contains two 11" x 22" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bench seat applications.

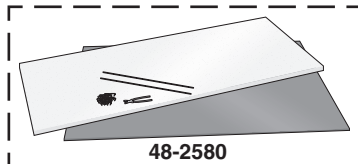

Order two Seat Heater Kits to ensure maximum comfort for the driver's and passenger's seats.

Truck Gauges ... A Functional New Look

2-1/16" Electric Full Sweep with Smoke Lens

Gauges include Wiring Harness, Mounting Bracket, Mounting Hardware, Mounting Tape and Installation Instructions.

- Truck Gauges feature an Aluminum Bezel and Smoke Colored Lens which masks the gauge readings when vehicle is turned off.
- When vehicle is turned on the gauges illuminate and broadcast a medium blue color light for daytime or nighttime readability.
- Smooth operating fluorescent red pointer.
- Gauges automatically calibrate whenever the vehicle is started.
- Gauges feature buttons on back to:
 - Set warning levels for minimum and maximum readings.
 - Recall maximum reading.
 - Clear memory.
- Oil Pressure Gauge reads 0-100 PSI, and comes with 1/8" NPT Electric Sender and 1/4" NPT Brass Adaptor.
- Water Temperature Gauge reads 100-260 Degrees Fahrenheit, and comes with 1/8" NPT Electric Sender, 3/8" and 1/2" NPT Brass Adaptors.
- Voltmeter Gauge reads 8-16 Volts.

How to Lower Your Truck

Drop is based on original factory ride height as measured from the top of the wheel arch to the ground. Original ride height is approximately 2" higher in the rear.

Ranger 1983-97

Use Drop Beams to lower the front and a Flip Kit in the rear for a cool 3 3/4" drop. Drop Shocks are required.

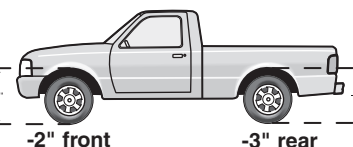

Drop Chart

Use this chart to order the parts you need for the desired drop.

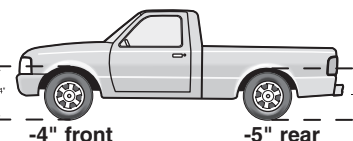

Year	Front/Rear Drop	Drop Beams	Control Arms	Front Springs	Flip Kit	Front Shock	Rear Shock
2WD Ranger 83-88	3" / 4"	50-5325			50-5330	45-2680	45-2687
2WD Ranger 89-97	3" / 4"	50-5326			50-5330	45-2680	45-2687
2WD Ranger 98-09	2" / 3"		50-5327	50-5329	50-5331	45-2682	45-2687 LH / 45-2691 RH
	4" / 5"			50-5329	50-5332	45-2682	45-2685 LH / 45-2687 RH

Ranger 1998-09

Use Drop Coil Springs to lower the front and a Flip Kit in the rear for a cool 2 2/3" drop. Drop Shocks are required.

Use Control Arms with Drop Coil Springs to lower the front and a Flip Kit in the rear for an awesome 4 1/5" Drop. Drop Shocks are required.

Axle Flip Kit

The Axle Flip Kit repositions the rear leaf spring below the axle to lower your truck. The Axle Flip Kit includes an exclusive adjustable axle bracket to set the pinion at the correct angle. 1983-97 Extended cab trucks with 2-piece driveshaft should also buy the Carrier Bearing Shim Kit to prevent driveshaft vibration at highway speeds.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL

Drop Beam Set

The Drop Beam Set is the best way to lower your truck. The unique tubular design of these beams makes them the easiest and most accurate available. Beams are made from 1/4" minimum thickness heat-treated steel with a powder coated finish. Beams include performance urethane suspension bushings. Installation is simple, just remove your factory beams and replace them with the Drop Beam Set. New ball joints should be installed with Drop Beams, see page 117.

50-5325	DROP BEAM SET-3"	2WD RANGER	83-88 (1)	699.94	559.95
50-5326	DROP BEAM SET-3"	2WD RANGER	89-97 (1)	649.94	519.95

Control Arms

Control Arms are a great choice to lower your truck. They will lower your ride with fewer side effects than spindles and springs. Ball joint angles are precisely set and factory alignment specifications are maintained. Control arms must be used with Drop Coil Springs listed below.

50-5327	CONTROL ARM SET-2"	"A" 2WD RANGER	98-09 (1)	849.94	679.95
45-2701	ADJUSTABLE CAM BOLT KIT	2WD RANGER	98-09 (1)	124.94	99.95

Note: "A" Adjustable cam bolts are required for proper alignment if your truck does not already have them.

Drop Coil Spring Set

Drop Coil Springs are a quick and easy way to lower your truck. If you are dropping your truck with coil springs then Drop Shocks are required.

50-5329	DROP COIL SPRING SET-FRONT-2" 2WD RANGER	98-09 (1)	199.94	159.95
---------	--	-----------	--------	--------

Rear Air Spring Kits ... For a Safer More Comfortable Ride

Ranger 1983-09
Bronco II 1984-90
Explorer 1991-94

These are adjustable Air Spring Kits for the rear of your truck that work with your stock suspension to keep your truck level and safe when hauling or towing. Only adjustable air springs support your heavy loads and provide a great ride. Stiff steel factory suspensions must compromise between ride comfort and load hauling capacity. Smooth ride suspensions can't handle heavy loads. Heavy-duty suspensions ride rough, especially with no load. Adjustable air springs solve these problems by allowing you to tune your suspension under all load and road conditions.

Air pressure can be adjusted with any type of air compressor as long as it produces enough pressure to service the springs. You can even use a bicycle pump. For maximum convenience and control add an on-board air compressor system.

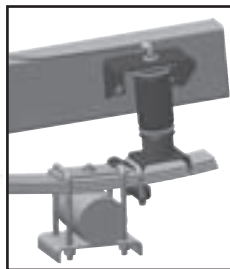

Air springs are sold in kits with custom brackets, hardware, air lines and illustrated instructions. Installation is quick and easy with common hand tools. You get everything you need for installation. They are designed to work with stock rear suspension and OE size tires and wheels. If you have modified your suspension or changed your wheel or tire size then you need to check for proper clearance. Ride Control Kits require 6" clearance between the tire and frame.

RideCONTROL

Limited Lifetime Warranty

50-5970

Air Lift's sleeve design gives the best ride of any load assist product. Ride Control is engineered to be used for light to medium duty hauling or towing. Ride Control provides additional support for today's softer OEM suspensions without changing the ride.

- Up to 2,000 lbs. of leveling capacity.
- Exclusive alignment tool and instructions make installation easy.

45-2876	LOAD CONTROLLER II AIR SYSTEM	83-09 (1)	249.94	199.95

3" Body Lift Kit ... Makes Room for Larger Tires

50-5450

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi, plated grade 5 hardware and steering shaft extension.

Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
50-5450	3" BODY LIFT KIT "A"B"C" RANGER	83-88 (1)	174.94	139.95
50-5451	3" BODY LIFT KIT "A"B"C" RANGER	89-92 (1)	212.44	169.95

50-5465	MANUAL TRANS SHIFT EXTENSION	83-06 (1)	62.44	49.95

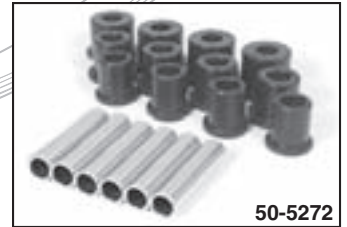

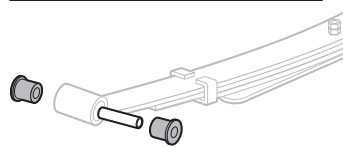

Note: "A" Body mount bushings must be drilled out to accept larger bolts.
 "B" Manual transmission models will require #50-5465 Shift Extension (Mazda transmission only).
 "C" Steering extension included in this kit.
 "D" Front bumper brackets are included in this kit.
 "E" Front and rear bumper brackets are included in this kit.

Read This: Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Handling

50-4830

% Increase in Resistance

Sway Bar	1-1/4"	779%	418%	192%
	1-1/8"	511%	274%	130%
	1"	319%	171%	
	7/8"	186%		
Stock Bar	3/4"		7/8"	1-1/16"

If your truck is not balanced or stable, the front end of your vehicle will not hold the road on a curve as well as the rear and vice versa. When your truck leans on curves, it throws the weight outwards and tilts the front wheels. This destroys the truck's road holding ability causing the wheels to "drift" or "creep" sideways in the turn thus leading to excessive tire wear.

By properly installing anti-sway bars you can give your truck the balance and stability it needs in curves, passing situations or uneven surfaces. Performance Sway Bars are made with high torque resistant steel with forged bar ends, not welded tips. There are no metal-to-metal fittings to cause wear and noise. Now you can give your Ford truck the handling performance of a top of the line "Big Bucks" model and it costs less than the price of a new set of tires.

Front End Link Kit 50-4840

Urethane End Link Kits are extremely hard bushings that connect to the sway bar ends. They increase the lateral rigidity of your sway bar.

50-4839	URETHANE FRAME BUSHING SET 1-1/4" SET OF 2	21.19	16.95

The Electronic Musical Horn easily plugs into a cigarette lighter or power point to play a selected sound three times and stop automatically or can be used as a powerful loud speaker with the included microphone. The command module is 7" wide by 3" high and easily mounts within reach using the included adhesive backed hook and loop patches. No drilling is required.

46 Different Sounds

Animal Mode: Bird, Eagle, Elephant, Horse, Sheep, Dog, Tiger, Cow, Rooster, Turkey, Cat, Duck, Hen, Frog.

Alarm Mode: Whistle, Car Horn, Train, Laughing and 12 different siren sounds.

Music Mode: Lambada, It's A Small World, Fur Elise, Do Re Mi, Oh My Darling, Silent Night, Long Long Ago, Hungary Dance, For Bogey, Swan Lake, Oh Susannah, Baho Dance, Hallelujah, Row Row Row Your Boat, Love Story, When The Saints Go Marching In. Or go directly to Piano Mode and create your own music by pressing the buttons on the control panel.

Heavy-Duty Gas-Charged Shocks

Don't forget! Shocks are an often overlooked and very important part on your ride. Are you experiencing that embarrassing bounce when you hit a dip or bump? Do you experience annoying brake dive or acceleration squat? Limit that unsafe roll or sway when cornering! Regain control of spring and suspension movement. Replace those worn out, leaking old shocks with these affordable Heavy-Duty (HD) Gas-Charged units.

Turbo Mufflers ... Reduce Noise without Restricting Power

Highest quality turbo-style muffler which can be used as OE replacements as well as on custom exhaust systems.

Turbo Mufflers

- Galvanized, double wrapped muffler casing for maximum rust protection.
- Spot welded, louvered baffles to eliminate vibration.
- Reverse flow so that muffler can be inverted.
- Spun end caps for gas tight seal.

Cat-Back Performance Dual Exhaust System with Resonator Tips

Cat-Back Exhaust Systems have resonator tips that replace the original muffler and are 50 state emissions legal.

Available in black powder coat blunt tip or stainless steel angle tip.

The Cat-Back System replaces stock exhaust system from the catalytic converter back allowing you to increase performance and maintain your catalytic converter. The straight-thru design reduces back pressure for increased horsepower, more low end torque and better fuel economy. This system is made with modern tube benders utilizing mandrel bends, ensuring each bend is smooth flowing, increasing exhaust flow by up to 20% over stock systems.

Manufactured from 16-gauge aluminized steel that lasts up to twice as long as conventional plain steel systems. Easy bolt-on installation means there is no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

* After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

AIRAID uses five layers to assure the cleanest air possible. Four cotton layers and a fifth layer of synthetic media, combined with 304 stainless steel mesh and premium urethane, make these the most durable filters you will find.

AIRAID filters come with a lifetime "No Hassle Warranty".

AIRAID Filter Tune-Up Kit - Clean and restore your AIRAID filter to full airflow efficiency with this Filter Tune-Up Kit. The cleaning solution is uniquely formulated to clean without damaging the filter. Performance oil forms an additional line of defense against dirt without limiting airflow.

Carburetors ... Reliable Power Conversion Kits

Replace your old carburetor with a WEBER Conversion Kit to give your truck daily reliable starting and driving, trouble-free maintenance along with consistent performance. The WEBER Kit is a genuine high performance carburetor. It features a diaphragm type accelerator pump with 32mm primary and 36mm secondary barrel diameters. The DGEV also features a high speed enrichment circuit and a power valve circuit to improve performance at low vacuum running conditions. DGES carb is a synchronous opening 38mm two barrel carb with dual pump jets. Kits are designed for day-in-day-out street driving and are ideal because they are easy to install and maintain.

**No Engine
Modifications are
Required for
Installation**

50-4500

WEBER Carburetor Conversion Kits contain: Carburetor, manifold adaptor, Chrome Air Filter, all necessary hardware and installation instructions.

K&N Filtercharger Kit ... Maximizes Airflow for Instant Throttle Response

10 Year Million Mile Limited Warranty

- Allows your vehicle's engine to inhale a larger volume of air than the OE air filter assembly.
- Dramatically reduces intake restriction as it smoothes and straightens airflow.
- Instant throttle response, better acceleration, instant power and ease in lane changing and passing.
- Designed to replace the original air filter case.
- Won't jeopardize important emission standards.

The K&N Filtercharger Injection Performance Kit will provide fully maximized airflow potential. More air means more usable power and torque throughout the engine's rpm range.

Kits are easy to install with no drilling, cutting or fabrication, usually in 30 minutes or less.

AIRAID Intake Systems ... Increase Airflow

The higher your engine's airflow, the greater its efficiency and horsepower output. Unique intake tract and filter is substantially less restrictive than OE airboxes.

- Airflow is dramatically improved up to 20%.
- Dyno-testing shows gains as high as 18 horsepower, with no other changes or modifications.
- The finest materials and production methods are used.
- Mandrel-formed larger diameter tubing.
- Powder coating inside and out provides greater flow and protection.
- Filters are washable, reusable and last the life of your truck.

Loctite Ready Gasket makes leak-proof gaskets for temperatures from -75°F to 450°F in an instant. Blowout resistant, sensor-safe and outperforms pre-cut gaskets. Ideal for sealing differential covers, valve covers, water pumps, thermostat housings and more. Available in a 4 ounce can.

PART	DESCRIPTION	LIST	SELL
42-0817	READY GASKET-4 OZ CAN	18.69	14.95

Loctite Viper Lube is a high performance synthetic grease that provides superior lubrication and protection on bearings, hinges, latches, linkage, seat tracks, slides, springs and other automotive applications. Available in a 10.1 ounce aerosol can.

42-0818	SYNTHETIC GREASE	7.44	5.95
---------	------------------	------	------

Loctite Freeze and Release instantly freezes rusted and seized fasteners at a temperature of -45°F. The special shock-freeze effect creates microscopic cracks in the applied area and allows the active lubricating ingredients to penetrate into the connection. Components can be easily separated after a 1-2 minute penetration time. Once released, applied parts remain lubricated and protected from corrosion. Available in a 13.52 ounce aerosol can.

42-0811	FREEZE & RELEASE	12.44	9.95
---------	------------------	-------	------

Loctite Spray Adhesive dries clear with superior bonding strength. Unique formula resists water and humidity. Excels at attaching upholstery cloth, carpeting, insulation and has many other uses. Available in a 10.5 ounce aerosol can.

42-0798	SPRAY ADHESIVE	9.94	7.95
---------	----------------	------	------

Loctite Rubberized Undercoating is a professional blend undercoating that seals, protects and insulates frames, body parts, wheel wells and more. Available in a 16 ounce aerosol can.

42-0816	RUBBERIZED UNDERCOATING	8.69	6.95
---------	-------------------------	------	------

Loctite Super Weatherstrip Adhesive is fast drying, high strength, waterproof and is great for bonding all types of truck parts. Dries black. Available in a 5 ounce tube.

42-0812	SUPER ADHESIVE-BLACK	7.44	5.95
---------	----------------------	------	------

Loctite Copper Anti-Seize Stick provides a shield against high temperature seizing and galling of any stud, bolt, flange or other fasteners up to 1800°F. Perfect for spark plug threads in aluminum head applications, exhaust manifold bolts, thermostat housing bolts, brake pad backing plates, oxygen sensors and other mated parts. Available in a 20 gram stick.

42-0815	COPPER ANTI-SEIZE STICK	7.44	5.95
---------	-------------------------	------	------

Loctite Dielectric Grease increases performance and extends the useful life of bulbs, lamps and other electrical components by protecting them from moisture, salt, dirt and corrosion. Eliminates voltage leaks and arcing. Also prevents spark plugs from fusing to boots. Required for modern high-energy ignition systems. Lubricating properties ease in disassembly process. Protects rubbers, plastics, ceramics and metal surfaces. Use on any and all bulbs in your truck, as well as fuses, battery terminals, ignition components and other electrical connections.

42-0830	DIELECTRIC GREASE .33 OZ	7.44	5.95
---------	--------------------------	------	------

Permatex Windshield and Glass Sealant is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals. Available in a 1.5 ounce tube.

PART	DESCRIPTION	LIST	SELL
42-0809	SILICONE SEALANT	6.19	4.95

Vinyl Edge Sealer Pen can be used on all vinyl decals/graphics that will be exposed to the elements. The pen is filled with .3 ounces of ultraviolet light-blocking, fast-drying, clear acrylic sealer. It features a wedge applicator tip for a smooth, even application and includes a replacement tip so that it can be used over and over. It will also protect edges from damage caused by physical contact such as polishing/waxing and washing.

49-2677	VINYL SEALER PEN .3 OZ	18.69	14.95
---------	------------------------	-------	-------

3M™ VHB™ (Very High Bond) Adhesive Tape is a high-performance, double-sided adhesive tape for all types of automotive accessories, both interior and exterior. In many cases, this tape can replace rivets, spot welds, liquid adhesives and other permanent fasteners so surfaces remain clean and smooth. The tape's foam core allows it to expand and contract with temperature changes and to conform to surface irregularities and gaps. 3M™ has rated this product to be suitable for most environments with temperatures ranging from -95°F to +194°F. Package includes three 1" x 12" strips.

42-0819	3M ADHESIVE TAPE STRIPS	3.69	2.95

Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

50-9914-T
Single Cowl Hood

50-9911-T
Single Cowl Hood

- Cowl Induction Steel Hood creates Increased Airflow for Increased Performance.
- The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm under hood air.
- Muscle Car, Street Rod appearance lets people know you mean business.
- Increases engine cooling for better performance.
- Increased engine compartment space allows you additions of High Performance add-ons.

- Made from primed high-quality steel with full inner frame that reuses your original factory latch and hinges.
- Paint and bolt-on application.

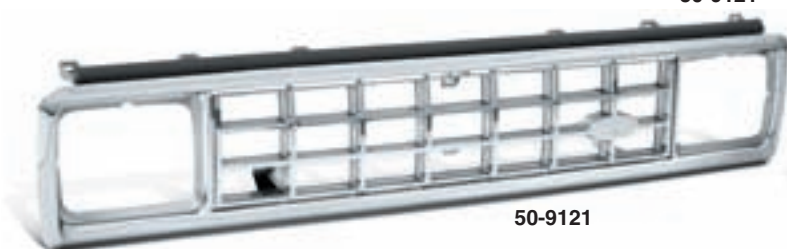

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.

Heavy-Duty Headlight Harness

This Headlight Harness draws power directly from your battery, whereas your original wiring draws its power from your headlight switch. This harness takes the load of switching the high current needs of upgraded headlights from your old factory switch. Not only does this prevent excessive wear on the switch, it will lessen the chance of your wires melting or catching fire.

LED Sidemarker Bulbs

LED Bulbs illuminate 140 times faster and can last up to 20,000 hours, much longer than conventional incandescent bulbs. They have no filament, which means they are less sensitive to vibrations caused by uneven road surfaces. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's electrical system. LED Bulbs appear clear when unlit and emit a pure color when lit. The best effect is achieved when installed with white sockets, check yours before ordering.

High-Performance Halogen Headlight

Ranger 1983-88**Bronco II 1984-88**

This is a high-performance, sealed beam halogen headlight; upgraded bulbs are not required. High-Performance Halogen Headlights produce a whiter and brighter light that is closer to natural daylight compared to standard halogen headlights that have a yellowish color.

Whiter light provides you with improved night visibility, a better sense of security on the road and can improve your reaction time to see roadside objects at night. The enhanced side visibility from whiter light also makes it easier to see signs, pedestrians, wildlife and road hazards.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
47-0305	HI-PERFORMANCE HEADLIGHT 200MM RGR BIII 83-88 (2)	24.94	19.95	

**47-0305**

- Whiter light comparable to HID headlights.
- Brighter light for better down road and side visibility.
- Light is DOT and SAE approved.

See Page 59

- OE-quality headlight has an aluminum die-cast housing with a protective finish coating, which makes the housing corrosion free.
- A brighter light focused on the road for a greater distance.
- Maximum light output is produced.
- Strong semi-hardened crystal clear glass lens.
- Lens does not diffuse the light associated with traditional headlight lenses.
- Includes a high-efficiency white halogen 12V 60/55 watt replaceable bulb.
- Light is DOT and SAE approved.

If you are adding brighter bulbs or upgrading to high power halogen lights, use a Heavy-Duty Headlight Harness, **see page 59**.

LED Tail Light Set ... The Future of Automotive Lighting

50-4742

50-4742 Lighted

50-4742

50-4743

50-4744

Additional LED benefits:

- Are longer lasting; can last up to 20,000 hours
- Have no filament, which means they are less sensitive to vibrations caused by potholes and other uneven surfaces
- Use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system
- Emit less heat than incandescent bulbs

These tail lights are a direct replacement for stock tail lights and are made to factory specifications so they require no modifications to fit. They feature LEDs for brake lights, parking lights and turn signals and use stock bulbs, sold separately for the backup lights.

Stop replacing burnt out bulbs, call or go online and order your LED tail lights today!

New technology previously only on high-end luxury cars is now available for your truck! In addition to looking stylish, these tail lights quickly alert other drivers of your intentions. LEDs illuminate 140 times faster than conventional incandescent bulbs. This translates to a gain of 20+ feet of reaction distance!

Chrome Rear Step Bumper - Star-Lite

Made Exclusively for LMC Truck, this Chrome Rear Star-Lite Step Bumper has a diamond tread on the top, offering sure footing when the bumper is used as a step. The internal mounted Backup Lights look great and make it safer to back up the truck. A larger area is illuminated making it easier to see how to maneuver into tight spots and avoid hazards at night.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
50-5288	CHROME STEP BUMPER-STAR LITE	STYLESIDE 83-09 (1)	287.44	229.95 *
50-0050	BUMPER MOUNTING KIT	STYLESIDE 83-09 (1)	37.44	29.95

Replacement Backup Light

Lights can be easily spliced into the existing backup light wires so they will come on each time you shift into reverse. The additional light is excellent for hooking up trailers or boats in the dark since they are located closer to the hitch area.

47-4485

However, in some cases factory wiring may not transfer enough power to properly illuminate the lights. For full illumination install a Backup Light Wiring Kit (sold separately #47-0647).

47-0227	REPLACEMENT BULB	FITS 47-4485 LIGHT (2)	1.19	.95

Replacement Backup Light Wiring Kit

The wiring kit includes a separate switch, enabling you to turn the lights on and off, eliminating the need and danger of having to leave the vehicle in reverse to utilize the lights.

Backup Wiring Kit #47-0647 Includes:

- Illuminated rocker switch
- 30 amp relay
- 15 amp in-line fuse
- Connectors
- Wires

47-0647

Chrome Rear Step Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight.

These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #50-0050 is required when installing these rear bumpers.

* After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

Chrome Rear Step Bumper - Diamond Tread

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

Bug Deflector Protects Your Truck

50-4950

Add styling and hood/windshield protection to your truck. Custom molded Bug Deflectors are manufactured from "Implex", a technologically advanced, rugged yet flexible high impact material that is virtually unbreakable, very scratch resistant, ultra-violet stable and provides excellent weatherability. The stand-away design allows easy cleaning behind the deflector and prevents contact with the hood at high speeds or in high wind conditions.

Installation is fast and easy with all necessary hardware included. Available in smoke only. Call or go online and order yours today!

Custom Flexible Chrome Trim ... Design it – Cut it – Install it

Fuel Door Skin Kit

Rocker Panel Trim Kits

Add a unique custom chrome look to your vehicle with this Flexible Universal Chrome Trim ... the ultimate Truck or SUV Trim. Now you can design accents and trim on your vehicle in the traditional patterns or create a unique custom look; it's your choice. Use a combination of any of the kits to achieve the look you want.

- The Chrome ABS Trim is easily cut with a pair of sharp scissors and features 3M™ peel-off backing for super strong adhesion.
- Scratch Resistant - UV Coated - Bright Chrome Finish.
- Pattern material is included for design and fitment of the flexible chrome laminate. Use the sand paper in the kit to clean up any edges or corners. This fun project will make your truck or SUV stand out from the rest.
- Available in four widths.

Design it – Cut it – Install it! Just peel off the protective cover then stand back and admire your custom accents and trim. Always double check all measurements of materials needed for your design for your vehicle against available sizes of kits.

Aluminum Running Boards Give You a Step Up

Extruded Aluminum Running Boards feature classic styling on a functional board. Rugged extruded aluminum that is finished with a brite-dip anodized coating makes these running boards durable. They feature a rough tape that runs the entire length of the boards to give you secure stepping all year round.

Full size stone guards protect the Extruded Running Boards from road debris. Mounting brackets are made from heavy-duty steel for added strength.

Round Side Step Bars Available in Stainless Steel or Black Powder Coat

Round Step Bars feature built in steps designed for both beauty and practicality. The step pads are UV tested to ensure long life in hot or cold climates. Step Bars feature 3" round tubes and are completely bolt on, no drilling required.

Flexy-Flares™ ... To Cover Those Wide Tires

Flexy-Flares™ provide protection from mud, dirt, gravel and salt. They are an attractive styling addition to any truck. Flexy-Flares™ are a necessity in many states where wide tires must be covered by a fender.

Sold as Set of 4

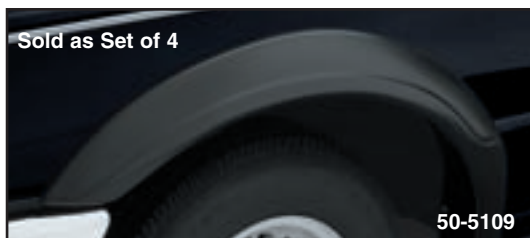

Constructed from the finest quality EDPM synthetic rubber, they won't crack or peel in cold weather or droop in high temperatures. These heavy-duty flares use a wire insert on the outer edge for extra strength and added rigidity. The exclusive built-in curvature allows the flare to fit the fenderwell without wrinkles or buckling. Flexy-Flares™ extend your fenders 3" and come with complete hardware packs for easy installation.

Limited Lifetime Warranty

Bed Mat and Tailgate Mat Protect Your Truck

Limited Lifetime Warranty

Protect your truck bed against dents, scratches and chemical spills while helping reduce dangerous load shifts. This rugged black Bed Mat is virtually indestructible and made with 3/8" thick cord-reinforced rubber for optimum tear strength. Also available is the 1/4" Medium Weight Rubber Tailgate Mat made from the same durable cord-reinforced black rubber as the Bed Mat and provides excellent protection from dents and scratches during loading and unloading.

The smooth, raised ribs running lengthwise permit easy loading and unloading. The knobby underside promotes aeration and drainage to keep your truck bed dry, helping to prevent rust and mildew. A raised border around the perimeter of the mat improves appearance and definition.

Both Mats can be easily installed and removed. Requires minimal maintenance; cleanup is easy with soap and water.

* After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

Vinyl Rail-Guards Provide Protection for Your Truck's Bed Rails

Rail-Guard is an innovative way to protect your truck's bed rails. It's made of impact absorbing heavy-duty vinyl and can be installed in just minutes, with no drilling required. The full width 3M™ adhesive over the entire backside ensures maximum holding and means condensation and dirt cannot get under the Rail-Guard. Rail-Guard can also be used on running boards, rocker panels and in other applications where an attractive protection strip is needed.

Rail-Guard Set is a 22 foot roll of 3-3/4" wide vinyl for bedsides and tailgate with a 6 foot roll of 1" extrusion for the front bed panel. Tailgate Guard is a 6 foot roll of 3-3/4" material. Must be sized and cut to fit.

Tailgate Rail-Guard Also Available Separately

50-4993	HINGED TONNEAU COVER	FLARESIDE	93-06 (1)	499.94	399.95 *

A **Tonneau Cover** is the most economical way to protect your cargo. The heavy-duty vinyl cover keeps your valuables out of sight. The black enameled aluminum frame clamps to your truck bed so there's no need to drill any holes and the frame does not attach to the tailgate so it can be opened as needed. Smooth, aerodynamic profile improves gas mileage by as much as 10%, and saves you money.

These Tonneau Covers feature special reversible snaps, which allow you to adjust tension to compensate for weather conditions. Position the snap stud low for a tight fit in hot weather or reverse the snap stud to high for looser fit in cold weather. Corners and snaps are backed with thick polymer to maintain smooth, good looks in any weather. Strong and durable fiberglass reinforced nylon snaps will not break.

The large, adjustable bows aid in shedding rain and snow and are easily removed to haul bulky items, then easily reinstalled. Locking corners allow easy removal of the tail rail for quick access to haul longer loads. The vinyl cover comes with a 10-year warranty and the frame has a lifetime warranty.

The **Hinged Tonneau Cover** design allows you to unlock the polymer covered locking handles and lift the tonneau cover, which creates full access to the bed without unsnapping the entire cover. The aluminum frame features stainless steel and brass snaps and locking corners allowing easy removal. The quick release front hinge makes removal of the entire cover and frame easy or if you can't leave the frame, roll up the vinyl cover and secure with the convenient straps, then remove the bows and tail rail to haul that bulky load.

IMPROVES

Fiberglass Rear Valance ... Completes the Aerodynamic Look of Your Truck

The Fiberglass Rear Valance mounts below the tailgate of your truck to complete the aerodynamic look. This easy-to-install valance was designed on the truck to give you a perfect fit. Comes in an easy-to-paint gelcoat white smooth finish. The mounting hardware is concealed by the valance for a smooth look. The valance also features a recessed license plate holder. *Check your local bumper laws before ordering.*

Because of the nature of fiberglass, rear valance may need sanding and fitting.

Driving Light Set

42-1524

Driving lights provide a longer, more focused beam pattern for improved long-range vision.

- Reinforced steel housing features a black finish with an adjustable chrome mounting bracket and a 10mm mounting stud.
- State-of-the-art reflector, in combination with a strong semi-hardened crystal glass lens, gives you maximum light output from a 4-1/2" diameter light.

Smoke Tail Light Cover Set ... For a Real Styling Enhancement

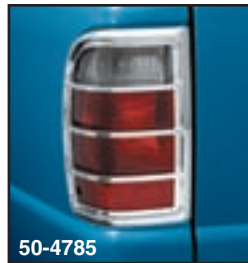

50-4745

Tail Light Cover Set will dramatically enhance the look of your truck. They mount easily using included 3M™ Automotive Dual Lock to provide a smooth appearance. Brake lights show through when on, but disappear when off. Available in smoke only.

Tail Light Covers may not be legal in some states; please check with your state and local authorities before ordering.

EXTERIOR ACCESSORIES**85****Sliding Rear Window ... Easy Single Hand Access****50-9490**

Sliding Rear Windows are self-latching for safety and security. The rocker design enables you single hand operation to open or close the window and still keep one hand on the wheel. Premium pile weatherstripping keeps the elements out and provides you smooth sliding operation. The contoured frame is designed for a secure fit and won't obstruct your rear view. The glass is 1,000°F heat tempered and meets DOT and SAE specifications. Available in clear or dark gray tinted windows. Call or go online and order today!

The installation for your new Sliding Rear Window is as simple as it sounds! Many people that have installed a Sliding Rear Window in the past can do this procedure in less than 30 minutes.

**50-4751****Limited Lifetime Warranty****LED Cab Roof Light Kits ... Add Visibility and Big Rig Style****49-3721**

Complete the restyle of your truck with these Clear LED Cab Roof Light Kits! Kit comes complete with lights, wire harness, quick splice connectors and a dash mount panel with toggle switch plus indicator light. The switch allows the Cab Roof Lights to be operated independently of the headlights. Kits meet SAE specifications.

The two outside lights are known as clearance lights; the three inner ones are marker lights. Combined they give oncoming traffic a visual fix on your truck for additional safety.

Additional LED benefits:

- Are longer lasting; can last up to 20,000 hours.
- Have no filament, which means they are less sensitive to vibrations caused by potholes and other uneven surfaces.
- Use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system.
- Emit less heat than incandescent bulbs.

LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive !

LMC universal fit truck covers provide protection from acid rain, dust, tree sap, industrial pollutants, harmful UV rays, animal traffic and bird droppings. Cover is not affected by temperature extremes. Fabric will not stretch or shrink and naturally resists rot and mildew. Elastic is sewn into the front and rear hems to ensure a snug fit. Truck covers will actually pay for themselves by reducing the number of times you'll need to wash and wax your vehicle.

In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Start protecting your truck's finish from the elements, call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

LMC Truck Cover offers three levels of vehicle protection, all economically priced; choose the cover that best fits your needs.

LMC 1000 – Designed for Moderate Weather Conditions

- Durable synthetic fabric has the look and feel of more expensive covers.
- Water resistant, yet breathable.
- Double-stitched seams for maximum strength.

50-8955	LMC 1000 TRUCK COVER	4DR EXPLORER	91-94 (1)	74.94	59.95

LMC 3000 – Superior Protection at a Great Value

- Soft cushioning layer protects your paint.
- Superior breathable 3-layer synthetic fabric is highly water resistant, even during downpours.
- No-leak construction achieved through ultrasonic welding.
- UV-stable materials ensure a long life.
- Ideal for long-term vehicle storage.

LMC 4000 – Best Protection for Your Truck or SUV

- Designed for the truck enthusiast.
- 4-layer synthetic fabric has fleece-lined bottom layer to protect fine automotive finishes.
- Durable outer layer, breathable 2nd layer, protective 3rd layer, soft fleece 4th layer.
- High water resistance - virtually waterproof yet breathable.
- Ultrasonic welding seals seams tight.
- Patented UV Stabilizer is used to ensure a long life.
- Ideal for long-term vehicle storage.
- Tie-down strap and buckle attached with strap pocket built into cover for easy storage.

LMC Truck Synthetic Chamois

The LMC Truck Synthetic Chamois is made from a unique Polyvinyl Alcohol (PVA) material. The extremely soft, sponge-like material gives it remarkable drying ability. Not only will your vehicle dry quickly, but the Chamois will also leave it lint, spot and streak-free over and over again!

The Chamois is ready to use right out of its convenient plastic storage tube. When finished, simply rinse with clean warm water, wring it out (do not machine dry) and return it to its storage tube even while still damp. Order more than one LMC Truck Synthetic Chamois today!

Typical Uses:

- Great for drying trucks, SUVs, cars, motorcycles and boats.
- Works effectively on chrome, tile counter tops and more.
- Use it anywhere you would use a chamois, towel or sponge.
- Resistant to dirt, grease, oil and most chemicals.
- Durable, long-lasting synthetic material measures 26" x 17".

Spare Tire Cover ... The Finishing Touch that Adds Protection for Your Spare

Small: Width 6" to 8-3/4"
Diameter 26-1/2" to 29"

Medium: Width 8-3/4" to 10"
Diameter 29-1/2" to 31"

Add that finishing touch that protects your spare tire against the damaging effects of the sun and weather. The Spare Tire Cover is made from heavy-duty vinyl-coated polyester with a lock-stitched seam construction and a drainage seam located at the bottom, making it durable under all weather conditions. It also features a strong built-in shock cord with no-rust clips for easy attachment. Spare Tire Cover is only available in black.

Measure your tire diameter and width before ordering.

Spitshine Tire Black ... By ColorBond

Not for use on tires with white lettering or sidewalls.

42-0760

ColorBond Spitshine Tire Black is a specially formulated paint designed to restore a military shine to faded and scuffed tires.

Easy to apply, simply clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Then mask the wheel or rim and apply in light coats.

- Spitshine is not a clear silicone dressing and is not greasy or tacky like other tire dressings that attract unsightly dirt and dust.
- Tires keep their shine for a minimum of two months. Simply reapply Spitshine Tire Black if you scuff your tire or just want to brighten the look.

ColorBond Prep/Cleaner is a fast drying, non-solvent, multi-surface cleaner.

Brake Drum and Caliper Paint System Adds Style and Protection

This is the most complete and easy-to-use paint kit available and includes everything necessary for a professional application. Applies easily as a brush-on to add a great styling touch and outstanding protection to your calipers or drums. System includes two-part paint, high performance brake cleaner, mixing can, stirrer, application brush and a color decal.

- Two-part paint offers extremely high heat resistance, up to 950°F.
- Brake fluids, road salt, oil and even loose gravel can't harm the durable high-gloss finish.
- Easier to apply and dries much harder than any spray-can product.
- Easy brush-on application does not require caliper or drum removal.
- Oil and chemical resistant high-gloss finish.
- Seals and protects with style.
- One system will cover up to four large calipers or two drums.

Bench Seat Consoles ... A Great Way to Get Your Truck Organized

Keep your truck organized and your valuables out of sight with a Bench Seat Console. Both consoles feature oversized, dual adjustable cup holders, dense foam padded armrest and bottom mount strap for seat belt mounting. Can also be used in the rear seat to organize clutter and provide passengers with handy drink cup holders.

Contractor Console has a lid with a strap and clip that folds forward and holds an 8-1/2" x 11" writing pad. The reinforced hinge and lid support provide a steady writing surface. Huge storage compartment is perfect for tools, paperwork, CDs, cassettes or other large items. The removable organizer tray keeps small items in their place. Measures 18-1/2"L x 10-1/2"W x 8"H.

ABS Plastic Headliners ... The Long Term Solution to Sagging Headliners

Ranger 1993-97

- Easy Installation
- No Special Tools
- Instructions Included

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down. Unfortunately, much of the time the foam board has deteriorated beyond repair. These ABS plastic backed headliners are a simple cost effective long-term solution to this problem.

Headliners are vacuum formed ABS plastic covered with original type foam backed cloth materials in original type colors. Their fit and function is as original.

Highliner with Built-In Speakers ... For a Stereo System Above the Rest

50-5101-BL

This Highliner adds a dynamic custom-styled headliner to your truck's standard cab by utilizing four uniquely placed speakers. The placement of the four built-in speakers guarantees true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. The radio console is designed to accept optional aftermarket stereo cassettes, CD players or CB radios.

The Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of your truck's interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which will handle up to 10 watts of power. Also features high-temperature resistant voice coils for a clean, crisp sound. Highliners come with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and complete instructions. See why they say, "Hearing is Believing."

Shelf-It™ ... The Ultimate in Organized Convenience

Shelf-It

Shelf-It™ Available in Black, Gray or Tan

Shelf-It™

Finally, there's an easy way to organize your truck. Shelf-It™ is ideal for storing mobile phones, sunglasses, garage door openers, maps and any other valuables you want to keep out of sight, but always within reach. It is made of heavy-duty extruded aluminum and features a durable, soft, velvet-like finish. Shelf-It™ is easy to install; simply remove your sun visors and install the mounting brackets in the existing sun visor holes. Mount Shelf-It™ to the brackets and attach the sun visors to the Shelf-It™ and you're done; no drilling required.

Dash Protector Prevents Fading and Cracking

Dash Protector helps eliminate the need for dash replacement and provides preventative care for the undamaged dash. Made from soft velvety velour that has special UV inhibitors to block the sun and resist shrinking and fading. They are custom cut to fit your model's dash and have pre-cut allowances for defrost vents, which makes installation easy using self adhesive Velcro tabs.

1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

All MIP mats are only available in black.

Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

There are times when carpeting is not the appropriate floor covering for a vehicle. If your truck spends most of its time in a cow pasture, on a construction site or playing in a mud bog, then one of these heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats is your wisest choice.

1/8" thick industrial Polyvinyl is resistant to moisture and temperature; therefore, it will not dry rot or crack and lasts years longer than rubber.

These mats are easy to clean and extremely durable. They protect your truck's interior from water, snow, mud and most chemicals including gasoline, oil and battery acid. MIP mats are vacuum molded from the original floor pan to cover the entire cab floor making installation easy.

The MIP floor mat includes 36 ounce jute padding under the front passenger area to provide a higher level of insulation against heat, cold and road noise.

Floor Liner Sets ... Tough and Durable Protection for Your Truck

Protect your truck's carpet from water, snow, mud and most chemicals including gasoline, oil and battery acid. Molded for an exact fit from a patented rubberized thermo-plastic material, guaranteed not to crack or break. The raised outer rim can trap up to 2 gallons of liquid. The driver's side liner is equipped with an extra-thick heel pad to offer heel protection and help guard against wear in this high use

area. These floor liners are designed to conform to the shape of your vehicle's floor and the anti-slip back keeps the liner in place.

Cleanup is easy, too. Just wipe up small areas with a cloth or remove the liner and hose it off.

Logo Floor Mats Protect Your Carpet

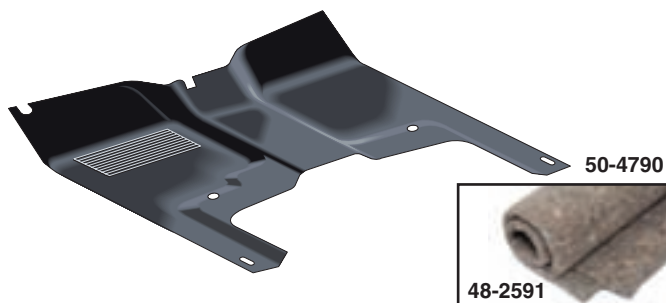

These mats protect your carpets from the everyday wear and tear as well as mud, sand, snow and the sun which cause your carpet to fade. They are trimmed with color coordinated vinyl binding and feature an embroidered Ford oval logo and a grip lock non-skid backing to help them stay in place.

Floor mats are made from OE 100% Nylon cut pile.

Sound Control Mat ... Hear and Feel the Difference

Sound Control Mat is scientifically designed to absorb and dissipate vibration created from the engine, road and structure of your vehicle to dramatically reduce noise. Cover as little as 25% of the area for a noticeable reduction in noise; increase coverage for even more noise control. Works best when applied in the following order: outer door skins, floor pans, firewall, behind dash, rear panels and cab roof. Just peel and stick; easy to cut and bend the 1.5mm thick sheet to conform to contoured surfaces and shapes with no preparation needed. For maximum noise reduction use with the Multi-Purpose Heat and Sound Insulation sold on page 95. Call or go online and order both today!

Molded Carpet ... Fits and Looks Like Original

Shiftrod and Steering Column

Holes are Not Pre-cut

Cut pile carpet is molded from the original floor pan for a perfect fit that covers the entire floor. It's made from 100% nylon with an OE type heel pad. The heavy 36 ounce jute padding under the front passenger area helps insulate against heat and reduces road noise.

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

Multi-Purpose Heat and Sound Insulation

Uses Space Age technology to insulate against heat, cold and noise. This 4-foot x 6-foot sheet is made of 3/8" sound deadening fiber padding. Highly reflective aluminum is bonded on one side to achieve 97% reflection of radiant heat. Works great under the hood, under your carpet or rubber mat, above headliners, behind door panels, on the firewall and behind the seat.

ColorBond ... Now You Can Be Sure All Your Interior Colors Match

The unique chemical proprietary process will form a molecular bond in 45 seconds and allow you to create an OE finish. No mixing! Simply sprays on to penetrate the surface and permanently bonds and seals in color. Dries to the touch in 45 seconds and forms a complete bond in 10 minutes. UV stable and color fast ... you can change or match the color of your interior without the worry of future cracking, fading, flaking or peeling. ColorBond is not paint, but a revolutionary new compound that changes your surface color permanently. ColorBond is so effective that it is OEM approved and several major car and boat manufacturers use it for repair and replacement. ColorBond has a Semi-gloss finish. Perfect for Vinyl, Leather, ABS Plastic, PVC, Polyurethane, Polycarbonate, Polypropylene, Acrylic, Lexan, Fiberglass and recycled Plastics. The original grain pattern is never altered or hidden; no matter how many times ColorBond is applied, the grain pattern is still clearly visible. It will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of

the surface. Each 12 ounce can covers 8 to 10 square feet. Because ColorBond becomes part of the surface it is applied to, any flaking or cracked original paint must be removed to enable ColorBond to penetrate and bond to a clean, stable surface. It is also essential to thoroughly treat/clean with ColorBond Prep/Cleaner to remove any build-up of dirt, grease or chemicals. If you are uncertain what type of material you are applying ColorBond to, test a small section in an inconspicuous location first. ColorBond will not cover or repair cracked or torn material.

ColorBond Prep/Cleaner is a fast drying, non-solvent, multi-surface cleaner. It cleans and prepares the surface for use of ColorBond.

EZ Oil Drain Valve

EZ Oil Drain Valve allows you to quickly change your oil with little to no mess. The innovative design is more compact than other oil drain valves and there is no lever to catch on obstacles. It doesn't require any adapters and is easily installed with a socket or wrench. The aluminum crush washer (included) ensures a tight, leak-free seal. The highly visible orange top makes it easy to locate under the engine and has a knurled surface for slip-free operation.

EZ Oil Drain Valve is simple to operate; just push in the cap and twist to the right to open for draining. Once all of the oil is drained, push in again and twist to the left to close. The spring-tensioned, double o-ring seal guarantees a long, leak-free life.

Makes oil changes quick, clean and easy to do, saving you valuable time.

Ported Vacuum Switches

Ranger 1983-96

Bronco II 1984-90

Explorer 1991-94

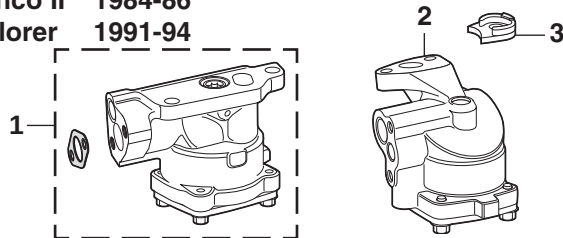

Ported Vacuum Switches (PVS) are heat sensitive devices that turn on or off vacuum pressure to vacuum related components such as EGR valves or distributor advance mechanisms. They can be found on the intake manifold, water outlets or the engine block itself. A damaged or malfunctioning PVS can affect engine performance such as horsepower, fuel efficiency and emissions. Switches are identified by color, number of ports and the OE number. The color of the PVS will be a solid color or painted on top. The OE number will be stamped or embossed on the side.

Harmonic Balancer Puller

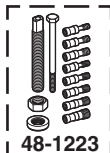

Remove the harmonic balancer from your engine without risking damage to the engine. Four-slot, heavy-duty yoke can handle any pulling job. Extra-long center screw is machined for use with the included adaptor tip that centers the puller on the crankshaft for a quick and damage-free removal. Includes five sets of hardened, flange-head bolts in standard and metric thread sizes. Call or go online and order yours today!

48-1222	HARMONIC BALANCER PULLER	(1)	24.94	19.95
---------	--------------------------	-----	-------	-------

Harmonic Balancer Installer

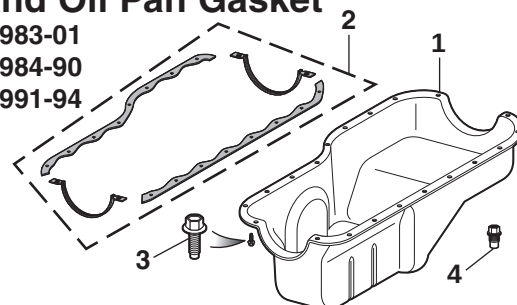

Install the harmonic balancer on your engine the right way. The threaded forcing screw uses a bearing to easily slide the harmonic balancer into place. The installer includes five standard and three metric threaded adaptors. Call or go online and order yours today!

Air Injector Reactor (A.I.R.) Components

Ranger 1983-92

Bronco II 1984-85

Core Refund Information - A.I.R. Pump: A rebuildable core will have no excessive wear or scoring. No cracked or broken housings. No black soot or rust inside pipes. No loose internal parts. Pipes in good condition. No "junkyard" cores. If it does not meet the above standards, it is not rebuildable and will not be refunded. DO NOT send a non-rebuildable core. Keep your pulley to use with remanufactured pump.

In August 1986 the U.S. Environmental Protection Agency issued strict new guidelines regulating aftermarket Catalytic Converters. Our Replacement Catalytic Converters are designed and manufactured to meet EPA emission requirements. With many states getting more stringent with their emission testing, we are pleased to be able to offer you a reasonably priced, proven and tested product that is legal for road use in 49 states and Canada. Replacement converters are not legal for sale or use in California. Limited Manufacturer's Warranty.

CodeScout 2500 Code Reader

For Your Computer Controlled Truck

Is your check engine light on and you don't know why? Have you checked everything under the hood several times and still don't know what is wrong?

Newer trucks may look complicated under the hood with a maze of wires, tubes and computer controls. But they are simpler than you think when you have the right tool. The CodeScout Code Reader can tell you what is wrong without even lifting the hood. The CodeScout allows you to plug into your truck's computer and get the same information as the dealer service technician. Simply plug into the computer connector, punch a few buttons and the CodeScout will tell you what is wrong. If there is a problem detected by the engine computer the CodeScout will retrieve the code from your truck and tell you what it means in plain English. Now anytime the check engine light is on you have the ability to diagnose it yourself and decide if you want to fix it or take it to a repair shop. When the problem is fixed, the CodeScout can even reset your check engine light.

This is the fastest and easiest way to diagnose and fix problems on your computer controlled truck.

CodeScout Features and Specifications

- Multi-line text and graphic display with contrast control.
- Displays current and pending trouble codes in English or Spanish.
- On screen definitions of trouble codes from built-in OBD-II library.
- Displays readiness monitors for emission components evaluation.
- Resets check engine light.
- 4 AA battery powered with data save to review data off vehicle.
- Retains the most currently scanned vehicle's data and configuration.

Includes cables, removable rubber protective boot, printed manual, CD with code descriptions and manual, batteries and soft carrying case.

CodeScout Code Reader can be used for more than just your truck. Works on all computer controlled domestic OBD-I vehicles 1982-95 and all OBD-II vehicles 1996 and later.

Electric Cooling Fan
Keeps Your Engine Cool

50-4766

49-3891

49-3892

Electric Cooling Fan - Now you can keep your engine cool no matter what the traffic situation with this Electric Cooling Fan. Efficient 8-blade fan and high performance motor for maximum air delivery; fan blade and shroud are constructed of glass-filled nylon for strength and durability. This fan works off the truck's electrical system so it reduces engine load. Fan operates only when needed, with #49-3891 Adjustable Thermostat. Includes all necessary mounting hardware and easy-to-follow instructions.

Adjustable Thermostat - Set fan temperature to suit your conditions. Adjustable from 32°-248°F.

Quick Re-Installation Kit - Gives you everything you need to reinstall the cooling fan should you ever have to remove it.

Radiators

Ranger 1983-09
Bronco II 1984-90
Explorer 1991-94

Radiator Core Size: The height and width of the central part of the radiator, between the tanks and the side pieces. Consists of parallel rows of tubes and fins.

Rows: The number of rows refers to the number of parallel rows of tubes in the core.

Engine Block Heaters

40-4855

40-4850	ENGINE BLOCK HEATER KIT	2.0 RANGER	83-88 (1)	49.94	39.95
40-4855	REPLACEMENT CORD	RANGER	83-88 A/R	16.19	12.95

A pre-heated engine ...

- Saves on fuel costs.
- Starts quicker.
- Runs smoother.
- Warms cab interior and defrosts quicker.
- Reduces engine wear and tear.

IMPROVES

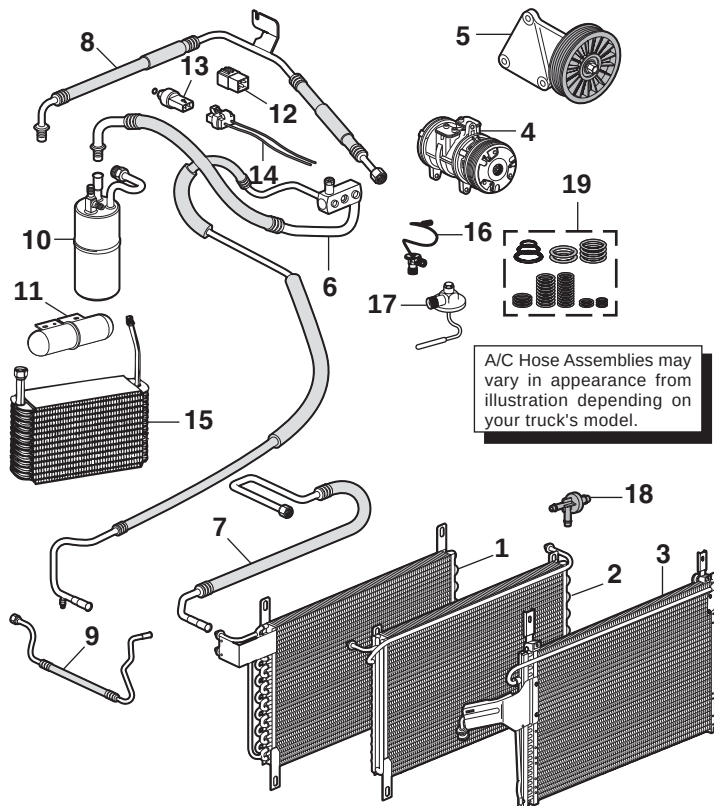

Engine Block Heaters are complete with cord and detailed easy-to-follow instructions for a simple installation directly into your engine block. Call or go online and order yours today!

Colortune Your Engine for Performance

A unique Test Spark Plug with a glass top allows you to see the gasoline to air ratio's fire with different colors. Adjust the carb until you see blue and your engine is precision tuned for peak performance.

If you can change a spark plug, you can use "Colortune".

Clutch Components

Ranger 1983-92
Bronco II 1984-90
Explorer 1991-94

Plan ahead! Pulling an engine costs money and takes time. Complete Clutch Sets include everything needed for a complete clutch job:

- Pressure Plate
- Throw Out Bearing
- Clutch Disc
- Bushing
- Clutch Alignment Tool and Spline Lube

You extend the life of your clutch system thousands of miles and save yourself the repeated hassle of replacing each piece. Think about it! A Complete Clutch Set is priced cheaper than each piece bought individually! Buy a Complete Clutch Set and save your time and money.

50-4210	(4)	CLUTCH FORK 2.0L 2.3L RGR BRII	83-89 (1)	49.94	39.95

Note: "A" The 1985-87 Rangers came with a two-piece style release bearing consisting of a short bearing and a steel piston or spacer. This two-piece style release bearing has been replaced by a new one-piece design that eliminates the need for the steel piston or spacer. When replacing the old two-piece style bearing, the piston or spacer must be removed from inside the concentric slave cylinder. If this is not done, the clutch finger will be overstroked and cause slippage and/or noise.

WARN Locking Hubs

Ranger 1983-97
Bronco II 1984-90
Explorer 1991-94

50-6530

For the ultimate in locking hub strength the name WARN says it all. Alloy housing and internal wave spring give positive engagement of four-wheel drive to the front end.

If you're tired of the old Ford hubs with springs and collars that are worn out, these make a quick and inexpensive replacement. Standard hubs with plastic dials.

Front Slotted Cross Drilled Rotors

Ranger 1983-09
Bronco II 1984-90
Explorer 1991-94

50-6540

The height of the hub and rotor assembly is measured from the backside of the rotor to the front of the hub.

Increase the braking ability of your truck by installing Slotted Cross Drilled Rotors. Performance brake rotors provide shorter stopping distances, lessen fade and improve wet-weather braking. Chamfered cross drilled holes allow built-up heat and gasses to dissipate, lowering rotor temperature by up to 200°, prolonging rotor and pad life. The curved slots deglaze the brake pads, reduce brake fade and minimize brake dust. The rotors are CNC machined and feature a silver zinc coating to protect against corrosion.

Brake and Clutch Fluids
Meet Your Safety Standards

42-0851

Castrol Brake and Clutch Fluid exceeds DOT 3 and DOT 4 specifications and is recommended for all vehicles with these requirements. Unique formulation provides maximum protection against vapor lock failure. Available in a 12-ounce bottle.

42-0851	CASTROL BRAKE/CLUTCH FLUID	DOT 4	4.94	3.95
---------	----------------------------	-------	------	------

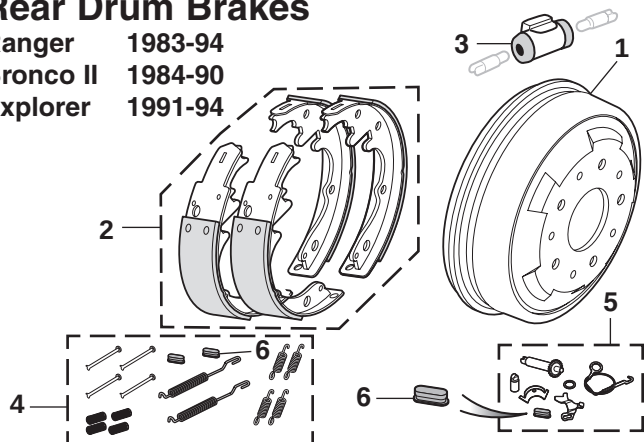

42-0852

Silicone Brake and Clutch Fluid meets DOT 5 requirements and is best for extended use; it won't absorb water that can cause corrosion. Silicone Brake Fluid will not harm painted surfaces. Available in a 32-ounce bottle. **Not compatible with DOT 3 or DOT 4 brake fluid. Not for use in vehicles equipped with ABS.**

42-0852	SILICONE BRAKE/CLUTCH FLUID	DOT 5	31.19	24.95

Front Disc Brakes

Ranger 1983-94
Bronco II 1984-90
Explorer 1991-94

Caliper Sets include: Bushings, O-Rings, Grommets and Bleeder Screws. Disc Brake Pads are sold separately.

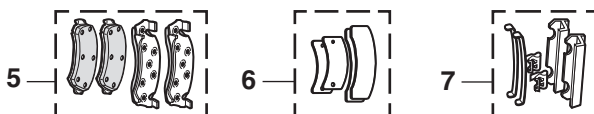

Cross Drilled Brake Rotors
See Page 126

50-6552

50-6554

The height of the hub and rotor assembly is measured from the backside of the rotor to the front of the hub.

W/ABS = With Anti-Lock Brake System

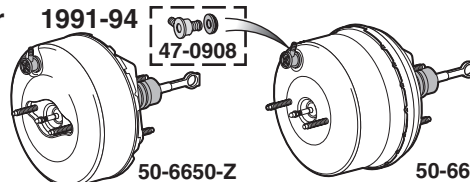

W/O ABS = Without Anti-Lock Brake System

Core Refund Information - Calipers: A rebuildable core will have no excessive wear. Caliper must be assembled. No worn, damaged or cracked castings. No damaged bleeder screw threads or seat. No worn or elongated mounting points. If it does not meet the above standards, it is not rebuildable and will not be refunded. DO NOT send a non-rebuildable core.

Replacement Battery Cables

All battery cables have a copper core that extends to the end of the plated lug to give a one-piece solid connection. Terminal protectors help prevent power-robbing corrosion build-up that inhibits cranking power.

Part numbers ending in -RD are red cables.
 Part numbers ending in -BL are black cables.

Battery Disconnect Switches

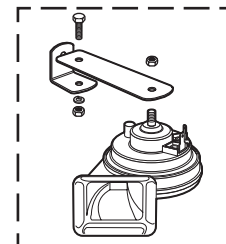

- Put an end to battery drain
- Effective deterrent against vehicle theft
- Reduced risk of fire while vehicle is parked

Battery Disconnect Switches are easy to install and use. Depending upon the switch, you simply unscrew the knob, lift the lever, or turn the key to isolate the battery from the rest of the electrical system, which reduces the risk of fire while your vehicle is parked. With key or knob style disconnects, the key or knob can be totally removed as an additional deterrent against vehicle theft. A 15-amp Bypass Fuse is available to maintain the settings on your computer, radio, clock, etc., while your battery is disconnected.

Universal Wiring Harness ... Finish the Job Right the First Time

Universal Wiring Harness is a comprehensive approach to rewiring your truck's electrical system. This factory assembled harness features a prewired fuse block with the benefit of modern blade type fuses. Adding extra electrical accessories is easy with the built-in additional circuits. Wiring Harnesses are available in 12 circuit and 18 circuit assemblies.

Only the highest quality terminals and GXL/XLPE wire (cross-linked polyethylene, -60°F to 275°F abrasion resistant) is used that is color coded and labeled every 2" to 3". Includes conventional and 1-wire alternator leads. Terminals are also provided to make adapting to any aftermarket steering column easier.

Standard features include starter wiring, tachometer lead, single headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties. Easy-to-follow instructions and schematics are included.

12 Circuit Wiring Harness

- Air Conditioning/Heat
- Brake Lights
- Cooling Fan
- Courtesy Lights
- Gauges/Instruments
- Hazard
- Headlights
- Horn
- Ignition Coil
- Radio
- Turn Signal
- Wiper

Split Braid Flex Loom

Unique black flexible braided construction features a 25% edge overlap that will allow for the sharpest of bends without distorting or splitting open. Lateral split design of the flex loom allows for easy installation of multiple wires. Self-wrapping feature ensures the flex loom will return to its original size and shape without the need to use fasteners or tape. Protect your vehicle's wiring, cables, hoses and tubing from unnecessary wear while adding a clean look. Available in three sizes: 1/4", 1/2" or 3/4" diameter.

Heavy-Duty Headlight Harness

This Headlight Harness draws power directly from your battery, whereas your original wiring draws its power from your headlight switch. This harness takes the load of switching the high current needs of upgraded headlights from your old factory switch. Not only does this prevent excessive wear on the switch, it will lessen the chance of your wires melting or catching fire.

47-3660

This Heavy-Duty Harness is complete with separate relays for low and high beams and features OE-style headlight sockets for easy installation with no splicing or cutting required. Call or go online and order yours today!

Universal Windshield Washer Kit

This Universal Windshield Washer Kit includes everything you need to replace your worn or broken windshield washer system and will adapt to any 12V truck.

The washer bottle holds 1.5L of washer fluid. Fluid levels can easily be read without removing the cap.

The kit includes:

- 1 Washer bottle with attached cap
- 1 Washer pump
- 7-1/2 feet of washer hose
- Push-button switch with wire harness
- Washer nozzles
- T-connector
- Mounting brackets with hardware

Ranger 1989-92 Explorer 1991-94
Bronco II 1989-90

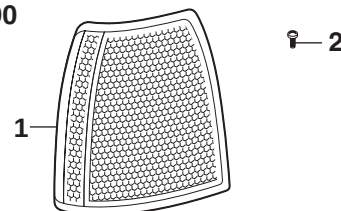

For added style, replace the white halogen bulb with a halogen blue-coated bulb #47-0253. The blue-coated bulb creates an intense white light which is popular in today's new cars and trucks. Get the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today.

Under Hood Lamp Kit

This Under Hood Lamp Kit adapts to any 12 volt truck and helps illuminate your engine bay. Necessary installation hardware is included with lamp. No need for wiring to a switch, bulb socket base is gravity activated, lamp comes on when the hood is raised and goes out when lowered. Mount underneath hood and connect lamp wire to any constant hot vehicle wire. Moisture proof in-line fuse is integrated into wire for your protection.

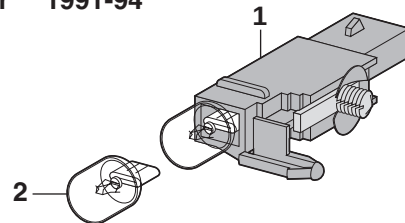

47-4361

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to the mounting bracket may be needed to assure the light goes out when the hood is closed. After the mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed.

Ordering: Your Responsibilities

- Be prepared with correct mailing zip code.
- Give correct part number, description of part and quantity desired.
- State make, model, year of vehicle and chassis ID number where pertinent.
- Have credit card account number, expiration date, name as it appears on the card and a billing address ready before you phone. Any incomplete/incorrect information will delay your order.
- Specify if shipping address is different from mailing address, be prepared with correct mailing zip code.
- To ensure accuracy, speak distinctly and spell your name, street, city and state.
- When ordering by mail or fax include all information above, use Order Form whenever possible and please print clearly. Include daytime phone number.
- When ordering by mail or fax, the correct parts total with additional charges are your responsibility.

Parts Information

We are not trained automotive technicians. You should consult local machine shops and mechanics regarding technical advice. Technical information is included in workshop manuals shown in catalogs.

Availability Of Parts

Every part listed in this catalog at the time it was written was available to us from our importers, suppliers or manufacturers. We serve a hobby that spans over 30 years and, even for late model vehicles, parts become discontinued. When a part is discontinued, it will be removed from the next current catalog. If you have ordered an item that becomes discontinued, the part will be cancelled from your order. You will be notified and refunded, if prepaid.

Substitution Of Parts

We reserve the right to substitute products of similar nature and like quality.

Backorders

If a part you ordered is not in stock at the time you placed your order, chances are it is already on the way to us. Such items will show as backordered on your packing list and will be shipped as soon as possible. If you do not want backorders to be filled, simply write "No Backorders" on your order form. Backorders can be cancelled prior to shipment by calling our customer order line, 1-800-562-8782.

Cancelled Orders

Orders with incomplete/incorrect information will be cancelled within 5 business days. Ten days after the third attempt to contact you, your order will be cancelled.

Abbreviations

The following may appear on your packing list:

- BACKORD - Backordered, will ship when available.
- TOS - Temporarily Out of Stock. Part cancelled. Please reorder in 3-4 weeks.
- TBA - To Be Announced (Availability). Part cancelled from order. Check availability at a future date.
- NLA - No Longer Available, stock depleted or no manufacturer.

Part Number Definitions

- T - After a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of 48 states will be quoted.
- ★ - After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.
- Z - After a part number means Remanufactured Part - Core charge will be applied then refunded after receipt of a rebuildable core.
- R - After a part number means Remanufactured Part - No core charge.

Payment Methods

1. Credit or debit cards accepted: Visa, MasterCard, American Express, Discover.
2. PREPAID ORDERS MUST BE PAID IN U.S. FUNDS. Not responsible for cash sent through USPS, UPS or other delivery methods. Money orders or certified checks **payable to Long Motor Corporation** are preferred since personal checks may cause a delay. NO FOREIGN CURRENCY.
3. C.O.D. orders will only be shipped for cashier's check or money order upon delivery. Refer to **C.O.D.'s** Section.
4. Gift certificates may be purchased through our Telephone Service Representatives. Gift certificate may only be redeemed by mail or at the City Pickup Counter.

Credit Card Charging

We do not charge your account when we receive your order. We only charge your account at the time the order goes to shipping and for only those items being shipped. **Your copy of the packing list is your record of payment.**

- Refunds are made in the same manner in which you made payment. Credit to your charge card or refund check if you paid by check. Credit to your charge card will not appear until you receive your next billing statement. Refunds on orders paid by check will be issued after 10 working days from receipt of check.

Balance Due

On prepaid orders, where there is a balance due, you will be notified.

Returns Policy

- We consider all sales final unless a part is either: (1) Defective (2) Other than ordered.
- A return will not be accepted after 180 days (unless under extended manufacturer warranty shown in catalogs). Returns must be made in their original cartons.
- Any part returned must be in NEW-SALE condition as determined by our returns department.
- Parts which installation has been completed or attempted are not returnable. It is the customer's responsibility to check parts for correct fit BEFORE installation.
- A part which has been disassembled, drilled, welded, cut, painted or modified in any way cannot be returned. Any incomplete kit cannot be returned.
- Installation, disassembly or modification done by a third party on behalf of a customer is not an exception to our policy. The purchaser has full responsibility for the condition of the part.
- Refunds are made in the same manner in which you made payment. Credit to your charge card or refund check if you paid by check. Refunds on orders paid by check will be issued after 10 working days from receipt of check. Refunds of less than \$1 will not be refunded without customer request.

Returns Procedure

- For a return to be accepted (exchange/refund), the procedure on the back of the packing slip must be followed exactly. Call Customer Service for return authorization on **Truck Freight** parts or **orders shipped outside the 48 States**. It is not necessary to call for authorization on **UPS** or mail shipments inside the 48 contiguous United States. The original packing slip or a copy of **both sides must** accompany the return. Failure to include invoice with your shipment will delay the return processing and may result in a 20% restocking fee. **Keep A Copy For Your Records!**
- All returns must have shipping charges prepaid, including duties, customs and special handling charges, where applicable. We recommend that you return your items via UPS for better service and traceability. COD's will **not** be accepted.
- On returns due to our error, your shipping expense will be reimbursed based only upon **UPS ground** charges. If a reship is necessary, we will pay ground shipping charges. Call for return authorization on **Truck Freight** parts.
- Unauthorized Truck Freight returns will be charged 20% restocking fee plus the actual roundtrip Truck Freight charges.
- If the return was not caused by our error, or not accompanied by a copy of the original packing slip, a restocking fee of up to 20% may be charged. This fee will be waived if the full credit from the return is applied to a new order received with the returned parts.
- On CD returns, if the tamper-proof seal on the CD case is broken, it may be returned for an exchange for the same part number only.
- Please package your returns carefully in original container(s) and send to the following address. We are not responsible for damages. **15450 W. 108th Street Lenexa, KS 66219**

C.O.D.'S

1. \$.90 for "C.O.D. Orders".
2. All C.O.D. orders will be shipped for cashier's check or money order. No exceptions.
3. You must provide an address where someone is available 8:00 a.m. - 5:00 p.m. Monday-Friday to receive and pay for your C.O.D. shipment.
4. Undelivered or refused C.O.D.'s will cause your account to be flagged for prepaid orders only.

C.O.D.'s are not allowed on:

1. Orders that must be shipped Truck Freight ("-T" suffix).
2. Orders outside of the 48 contiguous United States.
3. Air Delivery orders.
4. APO/FPO orders.
5. Postal Delivery orders.

Warranty

- LMC TRUCK guarantees all parts for exchange or refund up to 180 days provided all criteria for a return are met. See **Returns Policy & Procedure**.
- In some instances the manufacturer's warranty extends this limit. These extensions are noted in the catalog. Example: Hedman Heddners.
- All parts are subject to the manufacturer's warranty on workmanship and materials. Long Motor Corporation dba LMC TRUCK will not be responsible or liable for labor, incidental or consequential damages of any kind. Our maximum liability shall not exceed the cost of the product.
- Failure of a part due to misuse, incorrect installation or failure of related parts is not covered by warranty and is not the liability of Long Motor Corporation dba LMC TRUCK.
- The warranty period begins at Date of Purchase.
- If we are unable to exchange a part, due to backorder or no longer available status of the part, we will refund you the original purchase price of the part.

Prices

We establish prices and hold those prices until a new edition or supplemental price sheet is published. Except for unusual circumstances the price in the current catalog "Sell" column is the low price you will pay.

Catalog Errors

We have made every effort to assure that the information in this publication is correct. We will not be held liable or responsible if any inaccuracy exists in specifications or pricing. We reserve the right to correct any errors.

Your Rights

As a mail order customer you have certain rights according to federal regulation. We want you to be aware of those rights and be assured we will protect those rights. We are in business to serve you.

- If we are unable to ship your order within 30 days of the date received, we will notify you. On prepaid orders over 60 days, your written approval is required, or parts will be cancelled and you will receive a prompt refund.

LMC TRUCK Rights

- We reserve the right to refuse service or shipment to anyone.
- We reserve the right to collect a service charge of \$20 for a returned check. Insufficient fund accounts will be held for no shipments until fee is collected.

Effective October 21, 2009

These charges supersede all previous publications.

Order Charge

The following charges will be added to your order where applicable:

1. "Delivery and Handling Charge" based on "Parts Total" of order.
2. "Core Charge". See "Core Charge".
3. Orders shipped within Kansas will be charged the current combined state and local sales tax rate for the delivery address. Orders that are picked up at the City Counter will be charged the current applicable rate. If a Kansas State Resale Exemption form is on file or provided, no sales tax will be charged.

Delivery & Handling Charge (D & H) Within The 48 Contiguous United States

1. This charge is based on "Order Parts Total", excluding items which ship truck freight. -T parts must ship Truck Freight. All truck freight must be prepaid. Prepaid truck freight in the 48 contiguous United States will be \$125.00. This includes shipping, handling and insurance.
2. * After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00. When ordering multiple oversized parts only one Oversize Part Charge of \$20.00 will be applied to your order.

We reserve the right to choose method of shipment.

Order Parts Total	Ground Delivery / UPS	2nd Day Air	Next Day Air
Up to \$20.00	\$ 7.75	\$ 25.75	\$ 44.75

1. Orders must ship complete.
2. Your responsibilities include additional delivery costs, oversized and overweight charges which will be added to your order.
3. You must provide a daytime telephone number with your order. Ten days after the third attempt to contact you, your order will be cancelled.

*We reserve the right
to choose method of shipment.*

♦ You will be contacted with charges.

International Orders

Transportation charges are prepaid by the customer prior to shipping.

1. Orders must ship complete.
2. Transportation charges must be prepaid by customer prior to shipping.
3. Customer is responsible for **All Brokerage, Duty and Tax and Fees** associated with delivery to respective destination address.
4. Payment must be in US funds. Customer has sole responsibility for payment delivery method. No personal checks.

Canada Orders Only

1. UPS "Door to Door" services include brokerage, duty and tax.
2. Charges are based on value of shipment. Document and preparation fees included.

Shipping/Damage Claims

Please open your package(s) and check the items and packing list as soon as received. Some small parts are occasionally packaged inside larger ones.

All parts are F.O.B., Lenexa, Kansas. **DAMAGED SHIPMENTS ARE THE RESPONSIBILITY OF THE CARRIER.** Should your shipment appear to be damaged or opened when received, check the contents in the presence of the carrier's agent. Report any discrepancies and file a damage claim with the carrier at that time.

- On Truck Freight Shipments: It is the customers responsibility to have driver note all damage on the freight bill BEFORE YOU SIGN FOR THE PACKAGE.
- On Concealed Damage (not noted when delivered) contact the carrier.
- Save all packing your order was received in.
- Claims for shortages or damaged parts (visible or concealed) must be made to the carrier within **15 days** of receipt of parts or the claims will not be honored.

Core Charges (-Z Parts)

"Core Charges" are charges on items that are remanufactured. The core charge is added to your order and normally assures you will return a unit that can be sent to the manufacturer to be rebuilt. Without the constant inflow of rebuildable units, those items will become unavailable and discontinued. The core charge will be refunded per the policy below.

1. Ship the core back to us postpaid. WE WILL NOT ACCEPT C.O.D.'S. Return postage will not be refunded on the core return.
2. Refunds will be issued only for parts that have been purchased from us. Core returns must include a copy of your packing list showing core charges.
3. For a refund the core must be: rebuildable; complete, no missing pieces, and it must be fully assembled. Cores containing oil or any fluid must be completely drained. Cores returned with excessive oil/fluids, non-rebuildable and unidentified cores will not be refunded and will be disposed of at our discretion. In addition to the above policy, specific core refund requirements are found where the part appears in the catalog.
4. Upon receipt and approval of your core, the core charge will be refunded in the same manner as payment was originally made. Refund process may take 7-10 business days depending on the manufacturer.

Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

2" Rise

50-9914-T
 Single Cowl Hood

2" Rise

50-9911-T
 Single Cowl Hood

- Cowl Induction Steel Hood creates Increased Airflow for Increased Performance.
- The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm under hood air.
- Muscle Car, Street Rod appearance lets people know you mean business.
- Increases engine cooling for better performance.
- Increased engine compartment space allows you additions of High Performance add-ons.

- Made from primed high-quality steel with full inner frame that reuses your original factory latch and hinges.
- Paint and bolt-on application.

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.
