

Parts Catalogue for Lovol
4LZ-7N Type (GV2W-001K)
Self-propelled Grain Combine Harvester

The People's Republic of China

Foton Lovol International Heavy Industry Co., Ltd.

Introduction

In this catalogue, major parts of the Lovol Model 4LZ-7N Type (GV2W-001K) Self-propelled Rice Combine Harvester are systematically introduced in the form of parts diagrams and lists of detailed information, including parts description, code and quantity used in corresponding assemblies. This catalogue will be a great help for our customers while they maintain, repair this tractor or purchase replacing parts, it can also help customers to get familiar with the tractor and assembly of various components.

Lovol Model 4LZ-7N Type (GV2W-001K) Self-propelled Rice Combine Harvester

Prepared by Foton Lovol International Heavy Industry Co., Ltd.

Format: 880mmx 1230mm 1/16 Serial No.: GV2W-001K -TC-01

Foreword

This Parts Catalogue for Lovol 4LZ-7N Type (GV2W-001K) Self-propelled Rice Combine Harvester is compiled and designed basing on sample drawings of this series harvester, it can be used as reference while maintaining or repairing the machine, and purchasing parts, it can also help customers get familiar with the structure and assembling relations of this harvester.

All parts of Lovol 4LZ-7N Type (GV2W-001K) Self-propelled Rice Combine Harvester are listed in this catalogue (for the engine parts please refer to the Engine Parts Catalogue delivered with the harvester), while ordering parts, please fill in the following information in detail:

- (1) Code No. of the harvester: (marked on the nameplate at the harvester left driving panel)
- (2) Engine Serial No.: (marked on the engine cylinder body)
- (3) Code No. and specifications of parts: (including the code No. of manufacturer marked on the parts)
- (4) Name of parts:
- (5) Amount ordered:

Application of this parts catalogue:

On the left pages of this catalogue are unfolded drawings of parts assembly, while on the right are detail list of corresponding parts.

- (1) In the first column of the detail list are the sequence numbers of parts, which are one-to-one corresponding to the sequence numbers of the assembly drawing on the left page;
- (2) In the second column of the detail list is the code number and specifications of the parts, which are quite important as they must be provided while ordering parts;
- (3) In the third column of the detail list is the name of corresponding parts;
- (4) In the fourth column of the detail list is the vehicle model and parts quantity, namely, the quantity of parts or assemblies needed for one harvester model.

As technology advances quickly and new varieties of products are developed so fast, drawings in the catalogue may vary from actual products to some extent, in case of this problem, the actual products should be viewed as standard. For any confusion please consult Foton Lovol International Heavy Ineustry Co., Ltd. or the local sales representatives. We declare that any improper claims originating from the parts detail list and drawings in this catalogue from customers are invalid.

Since too many contents are involved in this catalogue, some shortcomings are inevitable. We sincerely hope that our users can help us further improve our work through offering timely feedback about their operation experience and comments to the quality, performance, structure and etc. of our products.

All copyright, revision right and interpretation right involving this catalogue are reserved with Foton Lovol International Heavy Ineustry Co., Ltd. Without agreement from the Foton Lovol International Heavy Ineustry Co., Ltd, any units and persons are forbidden from reprinting, publishing or copying this catalogue.

This technical drawing is an exploded perspective view of a mechanical assembly. The main components are labeled with numbers 1 through 32. The assembly includes a main frame (1, 2, 3), a curved arm (4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17), a lever (18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32), and a gear mechanism (21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32). A detailed view 'A' is shown in the top right corner, illustrating a specific joint or connection point.

This exploded view diagram illustrates the assembly of a mechanical device, likely a small-scale model or a component of a larger machine. The parts are numbered 1 through 19, with some sub-components indicated by decimal points (e.g., 7.1, 7.2, 7.3, 7.4, 7.5, 7.6). The diagram shows the following components and their assembly sequence:

- Base and Structural Components:**
 - 1:** Main structural frame or housing.
 - 2:** A small rectangular plate or cover.
 - 3:** A small rectangular plate or cover.
 - 4:** A small rectangular plate or cover.
 - 5:** A small rectangular plate or cover.
 - 6:** A small rectangular plate or cover.
 - 7:** A gear or pulley.
 - 7.1:** A small screw or bolt.
 - 7.2:** A small screw or bolt.
 - 7.3:** A gear or pulley.
 - 7.4:** A small screw or bolt.
 - 7.5:** A small screw or bolt.
 - 7.6:** A small screw or bolt.
 - 8:** A small rectangular plate or cover.
 - 9:** A small rectangular plate or cover.
 - 10:** A small rectangular plate or cover.
 - 11:** A small rectangular plate or cover.
 - 12:** A small screw or bolt.
 - 13:** A small screw or bolt.
 - 14:** A small screw or bolt.
 - 15:** A small screw or bolt.
 - 16:** A small rectangular plate or cover.
 - 17:** A small rectangular plate or cover.
 - 18:** A small rectangular plate or cover.
 - 19:** A small rectangular plate or cover.
- Assembly Instructions:**
 - 1. Assemble the base components (1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19) into the main frame (1).
 - 2. Attach the small rectangular plate (2) to the main frame (1) using the small screw (12).
 - 3. Attach the small rectangular plate (3) to the main frame (1) using the small screw (13).
 - 4. Attach the small rectangular plate (4) to the main frame (1) using the small screw (14).
 - 5. Attach the small rectangular plate (5) to the main frame (1) using the small screw (15).
 - 6. Attach the small rectangular plate (6) to the main frame (1) using the small screw (16).
 - 7. Attach the small rectangular plate (7) to the main frame (1) using the small screw (17).
 - 8. Attach the small rectangular plate (8) to the main frame (1) using the small screw (18).
 - 9. Attach the small rectangular plate (9) to the main frame (1) using the small screw (19).
 - 10. Attach the small rectangular plate (10) to the main frame (1) using the small screw (12).
 - 11. Attach the small rectangular plate (11) to the main frame (1) using the small screw (13).
 - 12. Attach the small rectangular plate (12) to the main frame (1) using the small screw (14).
 - 13. Attach the small rectangular plate (13) to the main frame (1) using the small screw (15).
 - 14. Attach the small rectangular plate (14) to the main frame (1) using the small screw (16).
 - 15. Attach the small rectangular plate (15) to the main frame (1) using the small screw (17).
 - 16. Attach the small rectangular plate (16) to the main frame (1) using the small screw (18).
 - 17. Attach the small rectangular plate (17) to the main frame (1) using the small screw (19).
 - 18. Attach the small rectangular plate (18) to the main frame (1) using the small screw (12).
 - 19. Attach the small rectangular plate (19) to the main frame (1) using the small screw (13).

This exploded view diagram illustrates the assembly of a mechanical structure. The components are numbered as follows:

- 1**: Main rectangular frame or housing.
- 2**: Small circular fastener or pin.
- 3**: Small circular fastener or pin.
- 4**: Small circular fastener or pin.
- 5**: Small circular fastener or pin.
- 6**: Small circular fastener or pin.
- 7**: Small circular fastener or pin.
- 8**: Small circular fastener or pin.
- 9**: Small circular fastener or pin.
- 10**: Small circular fastener or pin.
- 11**: Small circular fastener or pin.
- 12**: Small circular fastener or pin.
- 13**: Small circular fastener or pin.
- 14**: Small circular fastener or pin.
- 15**: Small circular fastener or pin.
- 16**: Small circular fastener or pin.
- 17**: Small circular fastener or pin.
- 18**: Small circular fastener or pin.
- 19**: Small circular fastener or pin.

The diagram shows the spatial relationship between these parts, with dashed lines indicating the assembly path and alignment. The parts are arranged in a way that suggests a complex, multi-layered structure.

This exploded view diagram illustrates the assembly of a mechanical structure. The components are numbered as follows:

- 1, 2:** Small circular fasteners or washers.
- 3:** Screws or bolts used for securing various plates.
- 4:** A larger screw or bolt.
- 5:** L-shaped brackets or plates.
- 6:** A small circular component, possibly a pin or washer.
- 7:** A small circular component, possibly a pin or washer.
- 8:** A small circular component, possibly a pin or washer.
- 9:** A screw or bolt.
- 10:** A circular plate with a central hole and mounting tabs.
- 11:** A semi-circular or fan-shaped plate with mounting tabs.
- 12:** A small circular component, possibly a pin or washer.
- 13:** A long, thin rod or shaft.
- 14:** Long, narrow plates or beams.

The diagram shows the hierarchical assembly of these parts, starting from the base plates (14) and moving upwards through various brackets (5), fasteners (1, 2, 3, 4, 9), and specialized plates (6, 7, 8, 10, 11) to the final assembly at the top.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The components are numbered 1 through 16:

- 1:** A small screw or pin at the top right.
- 2:** A small washer or spacer ring below component 1.
- 3:** A large, multi-ribbed flange or coupling.
- 4:** A small pin or screw passing through the center of component 3.
- 5:** A long shaft or rod passing through component 4.
- 6:** A circular ring or gasket on the shaft.
- 7:** A circular flange or end plate on the shaft.
- 8:** A cylindrical component on the right side.
- 9:** A small ring or gasket between component 7 and component 8.
- 10:** A large circular flange or end plate at the bottom.
- 11:** A complex, multi-ported component (possibly a valve or manifold) below component 10.
- 12:** A circular flange or end plate below component 11.
- 13:** A hex nut below component 12.
- 14:** A hex nut below component 13.
- 15:** A small rectangular pin or clip near component 11.
- 16:** A long cylindrical rod or shaft passing through component 10.
