Ranger Pro / 500 Series	S883811100	\$30.00
Dutro Models (2000 up to 10/2006)	8845837010	\$50.00

A/C IDLER PULLEY

MODEL	PART NO.	PRICE
Ranger Series	0474003700	\$44.00

TREAT YOUR HINO TO A **GENUINE** REPLACEMENT CLUTCH KIT

Nothing's tougher than Hino genuine parts for maximum durability and reliability. Like a Hino genuine clutch that will give you the original clutch performance that the Hino factory intended.

DECADES OF HINO EXPERIENCE.

Hino's vehicle technology has been developed over many decades by hundreds of technical engineers. From the cab, engine, driveline, down to the axles, there's nothing that Hino's engineers don't know about component metallurgy, precision manufacture and how to obtain maximum durability.

HINO GENUINE CLUTCH VS NON-GENUINE.

There are five critical performance factors that differentiate Hino genuine Clutch mechanisms from non-genuine: Smooth engagement; Perfect disengagement; Easy gear shift; Shock and noise absorption; Durability. To meet these requirements, Hino engages extensive treatment and tempering processes that non-genuine manufacturers cannot afford to undertake financially nor do they have the technical expertise.

PEACE OF MIND.

Hino genuine replacement clutch kits are competitively priced and will save you a whole lot more of your hard earned income in the long run. They'll last much longer and are guaranteed high quality - because they're made by Hino for exceptionally hard working Hino trucks like yours. For your own peace of mind, it makes good business sense to use Hino genuine parts in your truck!

Hino Genuine Parts & Accessories

300 Series 616 / 716 / 816 / 916 Wide cab (up to 06/2011)	A342	\$121.00
New Model 300 Series Wide cab (from 06/2011 onwards)	GA03607001	\$142.20

HEADLAMP PROTECTOR

MODEL	PART NO.	PRICE
Ranger Pro / 500 Series	A195	\$71.35
New Model 300 Series Wide cab (from 06/2011 onwards)	GA03609001	\$86.10

HINO GENUINE LUBRICANTS.

Hino Diesel X Plus

CAPACITY	PART NO.	PRICE
20 Litres	GS08880002	\$118.20

Diesel X Plus is a low ash SAE 15W-40 multigrade, JASO DH-2 approved diesel engine oil specially formulated to meet the needs of all Hino diesel engines, including vehicles fitted with Diesel Particulate Filters & Diesel Particulate Diffusers.

Features and Benefits:

- Unique additives tuned to Hino technology to give the highest levels of performance.
- Excellent engine cleanliness and wear control to help reduce maintenance costs and minimise downtime.
- Improved bore polish control to maximise engine life and give good oil consumption control.

Specifications:

- SAE 15W-40
- JASO DH-2

Hino Diesel X

CAPACITY	PART NO.	PRICE
20 Litres	GS08880001	\$129.70

Diesel X is a high ash SAE 15W-40 multigrade, JASO DH-1 approved diesel engine oil specially formulated to meet the needs of older Hino diesel engines. Not suitable for vehicles equipped with DPF/DPD.

Features and Benefits:

- Specially formulated to meet Hino requirements.
- Good engine cleanliness and excellent wear control to reduce maintenance costs and minimise costly downtime.
- Superior additives keep viscosity stable to maintain optimum oil pressure even in arduous stop-start city driving.

Specifications:

- SAE 15W-40
- JASO DH-1

Hino Driveline X

CAPACITY	PART NO.	PRICE
20 Litres	GS088880005	\$135.45

Driveline X is an SAE 90 differential oil designed for use in differentials and gear sets where API GL-5 lubricants are specified.

Features and Benefits:

- Superior viscosity characteristics provide improved cold flow properties.
- Excellent high temperature stability.
- Excellent resistance to foaming and corrosion.
- Excellent seal compatibility.

Specifications:

- SAE 90
- API GL-5

Hino Shift X

CAPACITY	PART NO.	PRICE
20 Litres	GS088880004	\$147.00

Shift X is a manual transmission fluid that provides exceptional gear protection and improved gearshift characteristics where SAE 75W-90, 80W-90 or 90 oils are normally used.

Features and Benefits:

- Provides quiet transmission operation under high load/high speed conditions.
- Delivers excellent gear and bearing durability.
- Extreme pressure anti-wear additives provide good thermal stability and synchroniser performance.
- Resistance to oil oxidation and deposit formation.

Specifications:

- SAE 80W-90
- API GL-5
