The Newest Series Off-road Vehicle

footer on each page

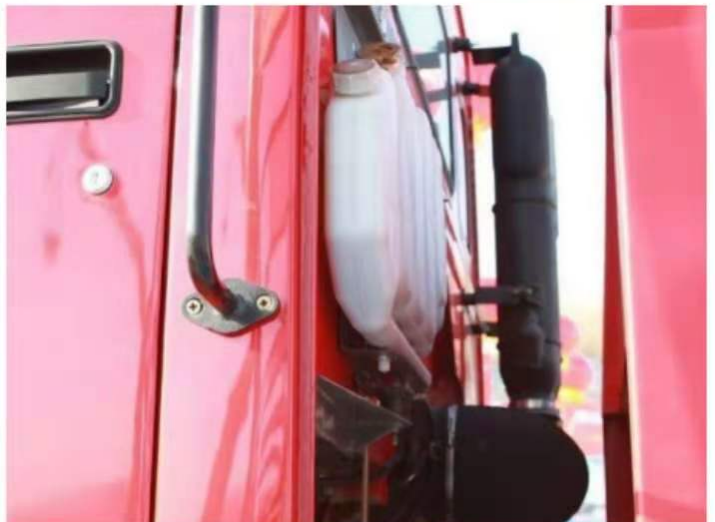

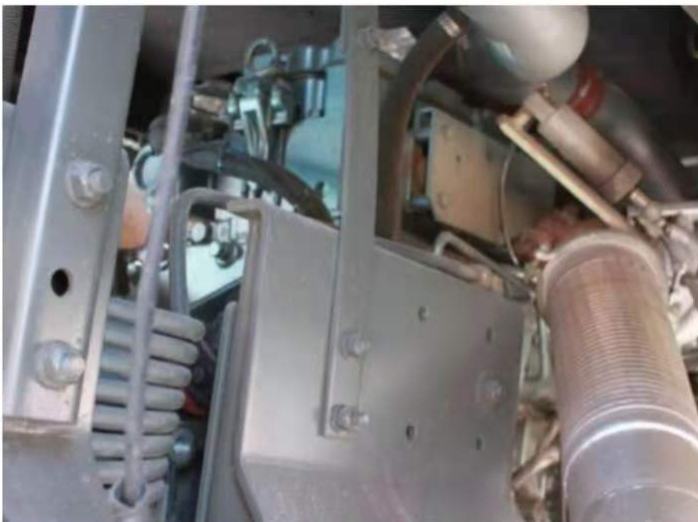

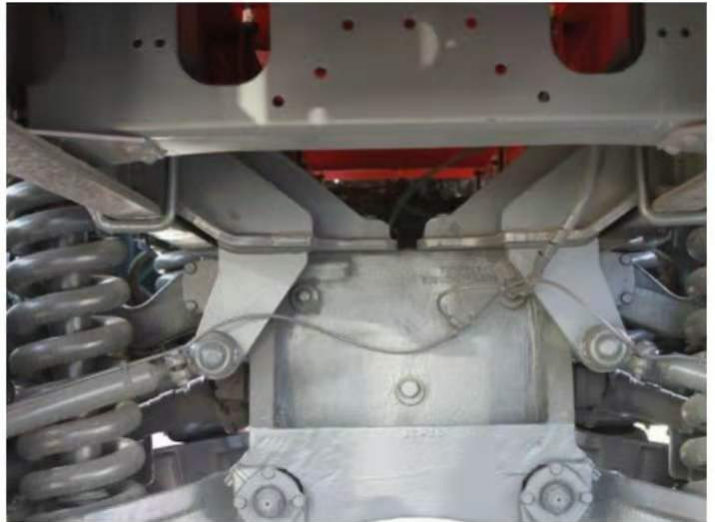

This series model is equipped with such advanced parts as CNHTC WD615 series Euro-II / Euro-III turbine turbocharged inter-cooled diesel engines, power ranging from 290hp to 380hp, CNHTC HW series transmission, strengthened drive axle, WABCO brake system and ZF8098 traversing mechanism.

The cab of HOWO series military vehicle is four-point suspended and installed the domestic originally created horizontal stabilizer for cab as well as strong protector frame to prevent front striking. Thus the cab has been thought of the safest domestic cab by specialists. HOWO series military vehicle adopts the German VOSS quick plug connector which has the first-class level in the world and greatly improves the air tightness of brake system as well as the safety of driving. This model also possesses the world widely used CAN bus communication technology and VDO meter that can reduce the number of lines and lift the reliability of electric system.

The truck can work under the temperature from -41°C to + 46°C day and night, elevation up to 5000m high. The options for the truck are ABS system, concentrated lubricating system, etc.
