

# INTERNATIONAL® 7000-MV FAMILY OF TACTICAL TRUCKS

**NAVISTAR®**  
DEFENSE

engineering | manufacturing | sustainment | [navistardefense.com](http://navistardefense.com)

The background of the advertisement features two International military trucks. On the left is a tan-colored M938A1 10-wheel drive truck, and on the right is a white and tan International L-Series 8x4 dump truck. Both vehicles are positioned on a rugged, rocky, and uneven terrain under a clear sky. The text 'INTERNATIONAL' is written in large, bold, blue capital letters across the middle of the image, with a registered trademark symbol (®) to its right. Below 'INTERNATIONAL', the word 'STRENGTH' is written in large, bold, black capital letters. To the right of 'STRENGTH', the phrase 'ENGINEERED FOR MILITARY MISSIONS.' is written in smaller, blue capital letters.

# **INTERNATIONAL<sup>®</sup>**

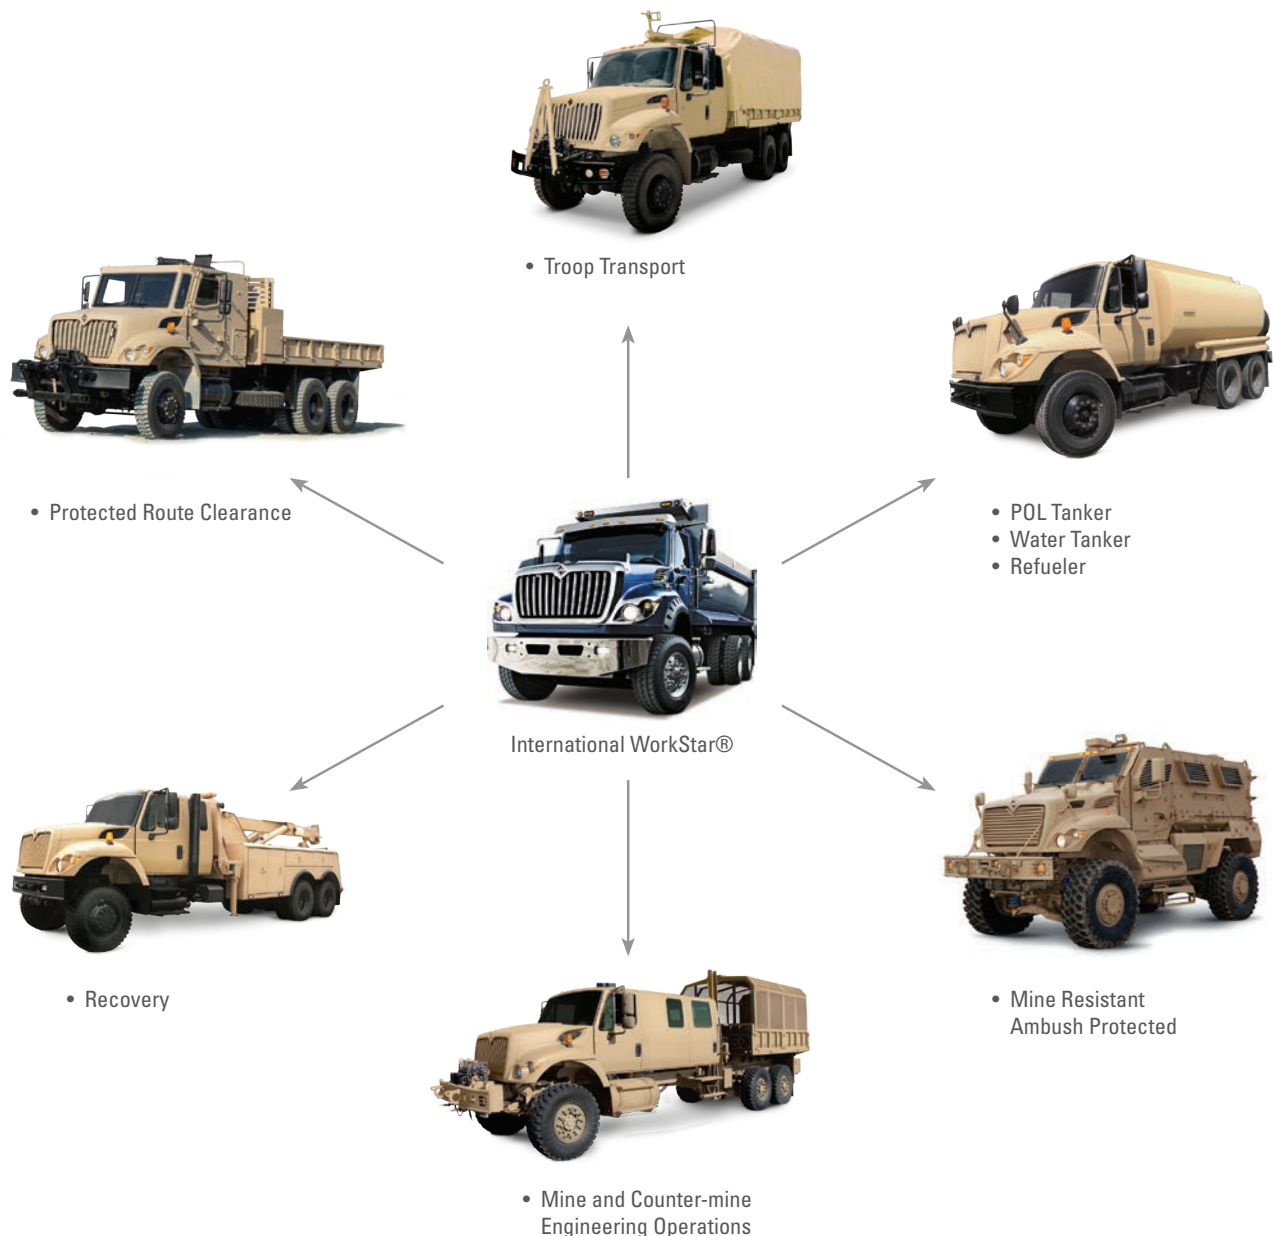

# **STRENGTH**

**ENGINEERED FOR  
MILITARY MISSIONS.**

# INTERNATIONAL® 7000-MV WORK ZONE TO COMBAT ZONE

The International 7000-MV is the world's most versatile medium-duty commercial off-the-shelf (COTS) military vehicle. The rugged design is the ideal combination of strength and toughness needed to meet challenging conditions. Its flexibility is ideal for a wide variety of mission requirements. Whether carrying equipment or personnel, the 7000-MV COTS platform's ergonomic cab coupled with its flexible armoring capabilities ensure that its occupants can complete missions efficiently and safely.

## Mission Configuration Examples:

## Chassis

This is more than a big, tough 6x6, 6x4, 4x4 truck; it's a hard-working model of efficiency.

### 4x4 Chassis

- **GVW Range:** 26,000-46,000 lbs
- **Wheelbase Range:** 148-262"
- **Payload Capacity:** 10,000-30,000 lbs
- **Suspension:** taper-leaf, multi-leaf, air bag

### 6x4 Chassis

- **GVW Range:** 40,000-65,000 lbs
- **Wheelbase Range:** 152-254"
- **Payload Capacity:** 20,000-40,000 lbs
- **Suspension:** taper-leaf, multi-leaf, air bag

### 6x6 Chassis

- **GVW Range:** 40,000-56,000 lbs
- **Wheelbase Range:** 195-262"
- **Payload Capacity:** 15,000-38,000 lbs
- **Suspension:** taper-leaf, multi-leaf, air bag

## Powertrain

With over 75 years of building diesel engines, we are prepared to meet your needs, on the highway and the battlefield.

### Navistar N9

- **Torque:** 800-950 lb-ft
- **Horsepower Range:** 275-330 hp
- **Transmission:** Manual 6-speed, 10-speed, 18-speed, 5-speed automatic

### Navistar N10

- **Torque:** 1250-1525 lb-ft
- **Horsepower Range:** 375-465 hp
- **Transmission:** Manual 6-speed, 10-speed, 18-speed, 5-speed automatic

### Navistar N13

- **Torque:** 1250-1550 lb-ft
- **Horsepower Range:** 275-500 hp
- **Transmission:** Manual 6-speed, 10-speed, 18-speed, 5-speed automatic

# Cab

The air-suspension cab rides smooth on- and off-road with extended ground clearance options.

**2-Door Standard – 3 passenger**

**2-Door Extended – up to 5 passenger**

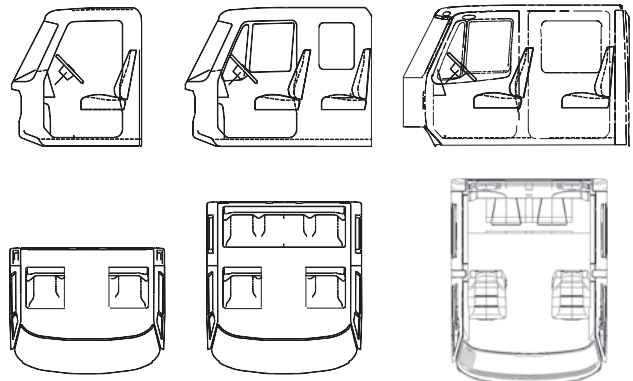

**4-Door Crew Cab – 5 passenger**

**9-Man Cab**

**Armored Cab**

---

# Body Configurations

---

From general troop transport to septic waste and recovery, the suite of body attachments available for the 7000 Series provides the answer to a wide variety of mission requirements.

---

**General Troop Transport (GTT)**

---

---

**Water/Fuel Tanker**

---

---

**Septic Waste**

---

---

**Refrigerated Truck**

---

---

**Recovery**

---

---

**Cargo**

---

---

**Dump Truck**

---

---

**Mine Roller**

---

---

**Hazmat**

---

---

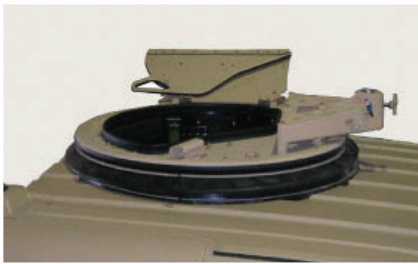

**Load Handling System (LHS)**

---

# Optional Capabilities and Features

## Cab Mounted Roof Weapons Station

Operates a 360 degree, revolving mounting platform for up to 50 cal machine guns.

## Troop Carrier Bench Seating

Capacity for 20 personnel and their equipment.

## Front Bumper Mounted Winch

Front quick release mounted winch with remote control.

## Optional NATO Rear Cross-Member

Provides for installation of rear towing pintle and towing connections.

## Blackout Lights

Limit detection during night convoy missions.

## Super Singles

Provide lower ground pressure.

## Fording Kit

Allows deep water fording.

## Load Handling/ISO Containers

Provides handling system to self-load pallets and ISO containers.

## Transportability

Air, sea and land tie-down available for shipping.

# On-Board Tools

Navistar Defense offers basic issue items (BII), operator, maintenance tools and a full array of special tools. Below is a sample of some of the typical BII tools:

|                                                                                     |                                               |                                                                                     |                                                      |                                                                                       |                                                     |
