KOMATSU

FOREWORD

When ordering a spare part, specially the part number, part name, and quantity required, and also specify your machine model code, machine serial number, engine serial number and the service meter reading.

This Parts Book describes not only standard items but also optional equipment and attachments. To order a part, please contact your nearest Komatsu distributor.

This Parts Book contains the information and special symbols as follows:

Figure And List	When you open this Parts Book, you will find an illustration on the left page (even-numbered page) for the spare parts group. Each individual part in the group is given an index number. On the right page, the component parts of the group are listed in the order of the index numbers shown on the illustration page. The part number, part name, and applicable machine serial number are given for each part.
Ref.	The Ref. is the number of the illustration shown on the page. It is not the spare part number. The numbers are not always continuous.
Item	This is the same as the item number in the illustration. The parts are listed in item number order.
Part No.	The number given in the Part No. Column is the part number for the part shown. It is the code used when ordering that part. It is important that there be no mistake in this code number when ordering.
Description	This gives the name of part that has the part number listed. The mark “.” is put in front of the part name of an assembly part and the item is entered following the assembly. If a part marked with “.” is a sub assembly, its components are marked with “.”. Example : ELEMENT ASSEMBLY, AIR CLEANER .ELEMENT ASSEMBLY, OUTER ..ELEMENT, OUTER ..NUT, WING ..WASHER
Qty (Quantity)	This specifies the number of pieces used for one machine. However, if a part is included in the assembly and/or component is specified.
Options	Applicable engine serial number is indicated for the engine volume, in the chassis volume, this indicates the machine serial number in which the part is used.

Symbols and codes

Symbols and codes used in the PART No. and DESCRIPTION columns, and represent the following:

- ☐

The part specified in the line above can be used instead of this part.
- ▣

This part can be used instead of the part specified in the line immediately above.
- ◆

This part and the part specified in the line immediately above are interchangeable.
- ▲

The part specified in the DESCRIPTION column can be used instead of this part if it is used as a set.
- ☒

This shows discontinued part. The part specified in the above line is supplied instead.
- ▼

This shows discontinued part. The part specified in the DESCRIPTION column is supplied instead as a set.
- ☆

This part cannot be supplied as an individual part. It is supplied as an assembly.
- ★

This part cannot be supplied as individual part. It is supplied as an assembly. However, it is supplied as an individual part by authorized distributor only.
- ◎

This indicates a part group. The part marked with this symbol is not considered a supply part.
- =====

The parts surrounded by this line are components of the part group specified in the above line.
- G-1, G2

These indicate categories of part groups.
- KIT

This indicates kit parts. For kit parts, refer to the service kit tables provided in this Parts Book.
- △

This indicates parts supplied semi-finished. It requires additional work before installation.
- PAINT (1)

This indicates parts shipped painted with under coat.
- PAINT (2)

This indicates parts supplied with different colors from the original color of your machine.
- (A)

This code indicates special parts for cold weather “A” specification (-30°C) machines.
- (B)

This code indicates special parts for cold weather “B” specification (-50°C) machines.
