General Information

This Catalogue contains Aftermarket Spare Parts suitable for the Volvo FH12, FH13 and FH16, also FM7, FM9, FM10, FM12, and FM13 vehicles.

The first line contains the DSS Part Number, the second line [in bold] gives a brief description. The following two lines relate to vehicle application with guidance as to the date window and individual model fitment, or to assist in identification of the engine, gearbox or rear axle type. The final line offers additional information to help identification, with further qualification where possible using the engine or chassis number.

The FH12/16 was first introduced in 1993, the FM Model range followed in 1998. Approximately 75% of FM parts are common to the FH range, Cab & Body Parts being where the majority of differences occur.

In 2001/2002, the FH & FM range was radically re-engineered using a new series of Engines, Gearboxes and Rear Axles. This split is often referred to as Version 1 [>Dec2001] and Version 2 [Jan2002>]

In 2005/2006 the range was radically changed once again and a 13 litre Engine was introduced. The engine cubic capacity in litres was dropped from the model identification and replaced with the engine BHP. [for example instead of 'FH12' you will find 'FH390' or 'FH430' etc]

Whilst every effort has been made to ensure all information in this catalogue is correct, we cannot accept any responsibility whatsoever for any errors found in this publication.

To further assist in identifying individual parts using whatever information may be available [Manufacturer / Supplier Part Numbers etc], why not check out the Direct Sourcing Solutions website and try our extensive Database Cross Reference Application.

Engine Types Description

The engine type description consists of numbers and letters as follows: "D13A 400" where;

D	= Diesel Engine
13	= Cubic Capacity in Litres
A	= Engine Type
400	= Engine Performance (BHP)

All FH/FM models use 6-cylinder engines.

The following engines may be installed:

FH Range;	D12A, D12C, D12D, D12D, D12D G6, D12F D13A, D13B, D13C D16A, D16B, D16C, D16E, D16G
FM Range;	D7C D9A, D9B D10B D11A, D11B, D11C D12C, D12D, D12D G6, D12F D13A, D13B, D13C

The Engine Number / Type can be found either on a plate affixed to the engine, or stamped directly into the engine block. This number indicates the engine type followed by the individual Engine Serial Number, (e.g. D13 * 001007).

Rear Axle Bogie Combinations

4x2 – 2 Axles, Rear Axle Driving = 4x2

6x2 – 3 Axles, Second Axle [Non-Driving] in front of Rearmost Driving Axle = PA

6x2 – 3 Axles, Rearmost Axle [Non-Driving] behind Drive Axle = TA

6x4 – 3 Axles, 2 Rearmost Axles Driving = DD

8x2 – 4 Axles, 2 Steering Front Axles, Rearmost Axle Driving = TS TA

8x4 – 4 Axles, 2 Steering Front Axles, 2 Rearmost Axles Driving = TS DD

Gearbox Types

R1400, SR1400, R1700, SR1700, R1900, SR1900

SR2000, SRO2000, SR2400, SRO2400

VT2014, VT2514

VT1708B, VT2009B

VT2214B, VTO2214B, VT2514B, VTO2514B

VT2412B

AT2412, ATO2412, AT2512, ATO2412

ATO3112

Example: VTO2214B

VT = Gearbox type
O = Overdrive
22 = Maximum Torque Rating (2200 Nm)
14 = Number of Gears
B = Version

Rear Axle Differential Types

EV80	17 Spline Halfshaft, Rear Differential on DD bogies
EV87	17 Spline Halfshaft, First Drive Axle on DD bogies
EV90	23 Spline Halfshaft, Single Drive Axle Vehicles
EV91	25 Spline Halfshaft, Single Drive Axle Vehicles
RS1344	34 Spline Halfshaft, Single Drive Axle Vehicles
RSS1344	46 Spline Halfshaft, Single Drive Axle Vehicles
RSSC1344	46 Spline Halfshaft, Single Drive Axle Vehicles
